

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

CHAPTER 43

AN ACT by which the state of New York agrees with the state of New Jersey upon the comprehensive plan for the development of the port of New York, pursuant to the compact authorized by the two states and signed April thirtieth, nineteen hundred and twenty-one, and consented to and approved by congress and the president of the United States, August twenty-three, nineteen hundred and twenty-one, and authorizing and empowering the port of New York authority to effectuate the same, and making an appropriation therefor.

Became a law February 24, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Whereas, The states of New York and New Jersey on the thirtieth of April, nineteen hundred and twenty-one, pursuant to chapter one hundred and fifty-four of the laws of nineteen hundred and twenty-one of New York and chapter one hundred and fifty-one of the laws of nineteen hundred and twenty-one of New Jersey, did enter into a compact or agreement which pledged the two states to faithful cooperation in the future planning and development of the port of New York, and which, furthermore, created the port of New York district, as therein described, and the port of New York authority, a body politic and corporate, as an instrumentality or agency of the two states to effectuate such pledge of cooperation;

Preamble.

And whereas, The said compact or agreement provides in article ten thereof that the " legislatures of the two states, prior to the signing of this agreement, or thereafter as soon as may be practicable, will adopt a plan or plans for the comprehensive development of the port of New York ";

Now, therefore (the state of New Jersey by appropriate legislation¹ concurring therein), the following be and it is hereby adopted as the comprehensive plan for the development of the port of New York under and pursuant to said compact or agreement:

Plan for development of port of New York.

Section 1. Principles to govern the development:

Principles to govern.

First. That terminal operations within the port district, so far as economically practicable, should be unified;

Second. That there should be consolidation of shipments at proper classification points so as to eliminate duplication of effort, inefficient loading of equipment and realize reduction in expenses;

Third. That there should be the most direct routing of all commodities so as to avoid centers of congestion, conflicting currents and long truck-hauls;

Fourth. That terminal stations established under the comprehensive plan should be union stations, so far as practicable;

¹ See Laws of New Jersey, 1922, ch. 9.

Fifth. That the process of coordinating facilities should so far as practicable adapt existing facilities as integral parts of the new system, so as to avoid needless destruction of existing capital investment and reduce so far as may be possible the requirements for new capital; and endeavor should be made to obtain the consent of local municipalities within the port district for the coordination of their present and contemplated port and terminal facilities with the whole plan.

Sixth. That freight from all railroads must be brought to all parts of the port wherever practicable without cars breaking bulk, and this necessitates tunnel connection between New Jersey and Long Island, and tunnel or bridge connections between other parts of the port;

Seventh. That there should be urged upon the federal authorities improvement of channels so as to give access for that type of waterborne commerce adapted to the various forms of development which the respective shorefronts and adjacent lands of the port would best lend themselves to;

Eighth. That highways for motor truck traffic should be laid out so as to permit the most efficient inter-relation between terminals, piers and industrial establishments not equipped with railroad sidings and for the distribution of building materials and many other commodities which must be handled by trucks; these highways to connect with existing or projected bridges, tunnels and ferries.

Ninth. That definite methods for prompt relief should be devised which can be applied for the better coordination and operation of existing facilities while larger and more comprehensive plans for future development are being carried out.

§ 2. The bridges, tunnels and belt lines forming the comprehensive plan are generally and in outline indicated on maps filed by the port of New York authority in the offices of the secretaries of the states of New York and New Jersey and are hereinafter described in outline.

§ 3. **Tunnels and bridges to form part of the plan.** (a) A tunnel or tunnels connecting the New Jersey shore and the Brooklyn shore of New York to provide through line connection between the transcontinental railroads now having their terminals in New Jersey with the Long Island railroad and the New York connecting railroad on Long Island and with the New York Central and Hudson River railroad and the New York, New Haven and Hartford railroad in the Bronx, and to provide continuous transportation of freight between the Queens, Brooklyn and Bronx sections of the port to and from all parts of the westerly section of the port, for all of the transcontinental railroads.

(b) A bridge and/or tunnel across or under the Arthur kill, and/or the existing bridge enlarged, to provide direct freight carriage between New Jersey and Staten Island.

(c) The location of all such tunnels or bridges to be at the shortest, most accessible and most economical points practicable, taking account of existing facilities now located within the port

district and providing for and taking account of all reasonably foreseeable future growth in all parts of the district.

§ 4. **Manhattan service.** The island of Manhattan to be connected with New Jersey by bridge or tunnel, or both, and freight destined to and from Manhattan to be carried underground, so far as practicable, by such system, automatic electric as hereinafter described or otherwise, as will furnish the most expeditious, economical and practicable transportation of freight, especially meat, produce, milk and other commodities comprising the daily needs of the people. Suitable markets, union inland terminal stations and warehouses to be laid out at points most convenient to the homes and industries upon the island, the said system to be connected with all the trans-continental railroads terminating in New Jersey and by appropriate connection with the New York Central and Hudson River railroad, the New York, New Haven and Hartford and the Long Island railroads.

§ 5. **Belt lines.** The numbers hereinafter used correspond with the numbers which have been placed on the map of the comprehensive plan to identify the various belt lines and marginal railroads.

Number 1. **Middle belt line.** Connects New Jersey and Staten Island and the railroads on the westerly side of the port with Brooklyn, Queens, the Bronx and the railroads on the easterly side of the port. Extends along the southerly shore of Raritan bay and through the territory south of the Raritan river reaching New Brunswick.

Number 11. § 33. **Immunity of witnesses.** No person shall be excused from testifying or from producing any books or papers in any investigation, hearing or inquiry, conducted pursuant to this chapter or the rules of the department when directed to do so by the officer presiding at such investigation, hearing or inquiry, upon the ground that the testimony or evidence, books or documents, required of him may tend to incriminate him or subject him to penalty or forfeiture; but no person shall be prosecuted, punished or subjected to penalty or forfeiture, for or on account of any act, transaction, matter or thing concerning which he shall under oath have testified or produced documentary evidence and no testimony so given or produced shall be received against him upon any criminal action, investigation or proceeding, provided, however, that no person so testifying shall be exempt from prosecution or punishment for any perjury committed by him in his testimony.

§ 34. **Practice on hearings; attendance and examination of witnesses.** 1. The practice on all investigations and hearings conducted or instituted as provided in this chapter shall be governed by the rules of the department, and in all such hearings or investigations where testimony is taken, the commissioner, or other officer conducting the same, shall not be bound by the technical rules of evidence.

2. All subpoenas shall be signed and issued by the commissioner, assistant commissioner or the secretary of the department and may be served by any person of full age.

The fees of witnesses shall be audited and paid in the same manner as other expenses of the department. Whenever a subpoena is issued at the instance of a complainant, respondent or other party to the proceeding, the cost of the service thereof and the fees of the witness shall be borne by the party at whose instance the witness is subpoenaed.

A subpoena issued as herein provided shall be served in the same manner as a subpoena issued out of a court of record.

3. If a person subpoenaed to attend before the commissioner or other officer of the department, fails to obey the command of such subpoena, without reasonable cause, or if a person in attendance upon an investigation or hearing shall, without reasonable cause, refuse to be sworn or to be examined or to answer a question or to produce a book or paper, when ordered so to do by the officer

or officers conducting such an investigation or hearing, or to subscribe and swear to his deposition after it has been correctly reduced to writing, if required so to do, he shall be guilty of a misdemeanor and may be prosecuted therefor in any court of competent criminal jurisdiction.

4. If a person in attendance upon an investigation or hearing refuses without reasonable cause to be examined or to answer a legal and pertinent question or produce a book or paper, when ordered so to do by the officer or officers conducting such investigation or hearing, the commissioner may apply to any justice of the supreme court upon proof by affidavit of the facts for an order returnable in not less than two nor more than five days directing such person to show cause before the justice who made the order, or any other justice of the supreme court, why he should not be committed to jail; upon the return of such order the justice before whom the matter shall come on for hearing shall examine under oath such person whose testimony may be relevant, and such person shall be given an opportunity to be heard; and if the justice determine that such person has refused without reasonable cause or legal excuse to be examined, or to answer a legal and pertinent question, or to produce a book or paper which he was ordered to bring, he may forthwith, by warrant, commit the offender to jail, there to remain until he submits to do the act which he was so required to do or is discharged according to law.

5. Any person who shall wilfully testify falsely as to any material matter pending in an investigation or proceeding under this chapter shall be guilty of perjury.

§ 35. **Proceedings in court.** If it appear after an investigation or hearing conducted as herein provided that any person, association or corporation is guilty of a violation of the provisions of this chapter or of any other act the enforcement of which is within the jurisdiction of the department, an action or proceeding may be instituted in a court of competent jurisdiction to recover a penalty for such violation or to compel a compliance with such provisions, or prevent a continuance of such violations.

§ 36. **Orders and service thereof.** 1. If it be ascertained after an investigation or hearing conducted as herein provided, that any person, association or corporation has failed to comply with or is guilty of a violation of the provisions of this chapter or of a rule of the department, or of any other general or special law relative to any matter within the jurisdiction of the department, an order may be made by the commissioner, under the seal of the department, compelling a compliance with such law or rule.

2. Every such order shall be served upon every person, association or corporation affected thereby, either by personal delivery of a certified copy thereof, or by mailing a certified copy thereof with postage prepaid to the person affected thereby, or in case of a corporation or association, to an officer or agent thereof, upon whom a summons may be served in accordance with the provisions of the civil practice act.

3. It shall be the duty of the person, association or corporation upon whom such order is so served to notify the department forthwith, in writing, of the receipt of such order, and in the case of an association or corporation such notification must be signed and acknowledged by a person or officer duly authorized by such association or corporation to admit service. Within a time specified in the order, every person, association or corporation upon whom it is served must, if so required in the order, notify the department in like manner whether the terms of the order are accepted and will be obeyed.

4. Every such order shall take effect at a time therein specified, and shall continue in force either for a period to be designated therein or until changed or abrogated by the commissioner.

5. If such hearing is held before an assistant commissioner, a report shall be made upon the termination of the hearing to the commissioner, with recommendation as to the determination which should be made as to the issues raised on such hearing. If the commissioner find upon such report or upon a hearing conducted by him, that the rule or order complained of is reasonable and valid he shall render his decision ratifying or confirming such rule or order; if he find that such rule or order is unreasonable or invalid, he shall revoke or modify it, or substitute a new rule or order in its place. If such modified or new rule or order is substantially different from the rule or order complained of, the parties affected thereby may bring before the commissioner, by a new petition, in the manner above provided, objections to its reasonableness or validity.

6. The decision of the commissioner shall be final, unless within thirty days after its issuance one of the parties shall institute a proceeding for the review thereof, as provided in the next section.

§ 37. **Review by court.** Any person affected by a decision of the commissioner rendered as provided in the preceding section may institute a proceeding for the review thereof in the supreme court of the county of Albany or any county in which the department shall have established a branch office. Such proceeding shall be instituted against the commissioner as respondent by petition and on such notice as the court may prescribe. If reasonable grounds are shown for a review of such decision, the court shall direct that within a specified time a return be filed with the clerk of the court, containing a certified copy of the testimony taken upon the hearing before the commissioner, together with copies of all papers, documents and records used therein. If the decision sought to be reviewed is one refusing a hearing on the ground that the issues have been determined in a prior proceeding, such return shall include a certified copy of the records of such prior proceeding. The court may of its own motion or upon motion of a party suspend the rule or order sought to be reviewed during the pendency of the review, and unless so suspended the rule or order shall remain in full force and effect.

The court shall thereupon determine the issues raised from the return so made and it may, where questions of fact arise which

were not raised or disposed of upon the hearing, take additional evidence as to the matters involved in the proceeding. The court may refer any issue arising in such proceeding to the commissioner for further consideration. At any time during such proceeding the party applying for a review of the commissioner's decision may apply to the court, without notice, for an order directing all questions of fact arising upon one or more specified issues, to be tried and determined by a jury, and the court shall thereupon cause such questions to be plainly stated for trial, and the findings of the jury upon such questions shall be conclusive in the proceeding.

A proceeding instituted as provided in this section shall have precedence over other actions and proceedings in the same court to the same extent and subject to the same conditions as an action or special proceeding brought by or against the people of the state.

Appeals from the supreme court to the appellate division of the supreme court and to the court of appeals may be taken in such cases and subject to the same limitations as in other cases.

§ 38. **When injunction may be obtained.** In an action in the supreme court for the recovery of a penalty or forfeiture incurred for the violation of any of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department, or of the rules of the department, an application may be made on the part of the people to the court or any justice thereof for an injunction to restrain the defendant, his agents and employees from the further violation of such provisions. The court or justice to whom such application is made, shall grant such injunction on proof, by affidavit, that the defendant has been guilty of the violations alleged in the complaint, or of a violation of any such provision subsequent to the commencement of the action. No security on the part of the plaintiff shall be required, and costs of the application may be granted or refused in the discretion of the court or justice. If the plaintiff shall recover judgment in the action for any penalty or forfeiture demanded in the complaint, the judgment shall contain a permanent injunction, restraining the defendant, his agents and employees from any further violation of such provision of this chapter or of any other law the enforcement of which is within the jurisdiction of the department or of the rules of the department. Any injunction, order or judgment obtained under this section may be served on the defendant by posting the same upon the outer door of the defendant's usual place of business, or where such violation was or is committed, or in the manner required by the civil practice act, and the rules and practice of the court. Personal service of the injunction shall not be necessary when such service cannot be secured with reasonable diligence, but the service herein provided shall be deemed sufficient in any proceeding for the violation of such injunction.

the department shall, except where other penalties are herein-after prescribed, be subject to a penalty in the sum of not less than twenty-five dollars nor more than one hundred dollars for the first violation, nor more than two hundred dollars for the second and each subsequent violation. When such violation consists of the manufacture or production of any prohibited article, each day during which or any part of which such manufacture or production is carried on or continued, shall be deemed a separate violation. When the violation consists of the sale, or the offering or exposing for sale or exchange of any prohibited article or substance, the sale of each one of several packages shall constitute a separate violation, and each day on which any such article or substance is offered or exposed for sale or exchange shall constitute a separate violation. If the sale be of milk and it be in cans, bottles or containers of any kind and if the milk in any one of such containers be adulterated, it shall be deemed a violation whether such vendor be selling all the milk in all of his containers to one person or not. When the use of any such article or substance is prohibited, each day during which or any part of which such article or substance is so used or furnished for use, shall constitute a separate violation, and the furnishing of the same for use to each person to whom the same may be furnished shall constitute a separate violation. When the storage of any article is prohibited beyond a certain period, each day during which or any part of which any article is so stored beyond the period provided for by this chapter, shall constitute a separate violation.

A right of action for the recovery of, or a liability for, penalties incurred as provided in this chapter, or in any other law the enforcement of which is within the jurisdiction of the department, may be released, settled or compromised before the matter is referred to the attorney-general as provided in section forty-four of this chapter, and thereafter may be released, settled or compromised by the attorney-general, either before or after an action is brought to recover such penalties.

A person, association or corporation who shall fail by himself, itself or through his or its agents, officers and employees, to obey any order of the commissioner, or who shall violate any rule of the department shall be subject to a penalty not exceeding the sum of two hundred dollars for each and every offense. § 41. Violation of chapter or rule a misdemeanor. A person who by himself or another violates any of the provisions of this chapter or of any other law the enforcement of which is within the jurisdiction of the department, or of any lawful rule of the department is guilty of a misdemeanor, and upon conviction

shall, except as otherwise provided in this chapter, be punished by a fine of not less than twenty-five dollars, nor more than two hundred dollars, or by imprisonment for not less than one month, nor more than six months, or by both such fine and imprisonment, for the first offense; and by not more than one year's imprisonment for the second offense.

§ 42. **Act of officer or agent deemed act of principal.** In construing and enforcing the provisions of this chapter relating to penalties, the act of a director, officer, agent or other person acting for or employed by a person, association or corporation subject to the provisions of this chapter and acting within the scope of his employment, shall be deemed the act of such person, association or corporation.

The intent of any person doing or omitting to do any such act is immaterial in any prosecution for a violation of the provisions of this chapter. Any person who suffers, permits or allows any violation of the provisions of this chapter in any room or building occupied or controlled by him, shall be guilty of such violation and liable accordingly. Any person who shall keep, store or display any article or product, the manufacture or sale of which is prohibited or regulated by this chapter, with other merchandise or stock in his place of business, shall be deemed to have the same in his possession for sale.

§ 44. **Prosecution for penalties.** 1. Whenever the commissioner shall know or have reason to believe that any penalty has been incurred by any person for a violation of any of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department, or of the rules of the department, or that any sum has been forfeited by reason of any such violation, the commissioner may report the facts to the attorney general who may cause an action or proceeding to be brought in the name of the people for the recovery of the same. In an action for a penalty or forfeiture incurred by reason of the violation of the provisions of this chapter, or of any other law the enforcement of which is within the jurisdiction of the department, or of the rules of the department, when the complaint charges a violation of any two or more of such provisions, the plaintiff shall not be compelled to elect between the counts under such different provisions but shall be entitled to recover if it is

found that a violation of any of such provisions has been committed for which a penalty or forfeiture is imposed.

3. If the defendant in such an action shall prove that during any portion of the time for which it is sought to recover penalties or forfeitures for a violation of a rule or order of the department, the defendant was actually and in good faith prosecuting a suit, action or proceeding before the department or in the courts to set aside such rule or order, the court shall remit the penalties or forfeitures incurred during the pendency of such action or proceeding.

usually known by that term, which is manufactured exclusively from pure unadulterated milk or cream or both with or without coloring matter, salt, rennet, sage, olives, pimentos, walnuts, peanuts, tomatoes, celery salt, or onions, added thereto as a flavor: provided that when manufactured by adding to the elemental product of the dairy usually known by the term "cheese," and manufactured exclusively from pure, unadulterated milk or cream or both, any pimentos, olives, walnuts, peanuts, celery salt, tomatoes or onions the percentage of all such substances so added shall not exceed twenty-five per centum in bulk of the manufactured product.

§ 47. **Care and feed of cows, and care and keeping of milk.** No person shall keep cows, for the production of milk for market or for sale or exchange, or for manufacturing the milk or cream from the same into any article of food, in a crowded or unhealthy condition or in unhealthful or unsanitary surroundings and no person shall keep such cows or the product therefrom in such condition or surroundings or in such places as shall cause or tend to cause the produce from such cows to be in an unclean, unhealthful or diseased condition, if the produce from such cows is to be sold, offered or exposed for sale upon the markets for consumption or to be manufactured into any food product, nor shall such cows or the produce therefrom be handled or cared for by any person suffering with or affected by an infectious or contagious disease, nor shall any such cows be fed on any substance that is in a state of putrefaction or fermentation, or upon any food that is unhealthful or that produces or may produce impure, unhealthful, diseased or unwholesome milk. But this section shall not be construed to prohibit the feeding of ensilage.

No person having milk in his possession for the purpose of selling the same for consumption as such or for manufacturing the same into butter, cheese, evaporated or condensed milk or other food shall keep the same in utensils, cans, vessels, rooms or buildings that are unclean or have insanitary surroundings or drainage or in any condition whatsoever that would tend to produce or promote conditions favorable to unhealthfulness or disease. The commissioner shall notify all persons violating this section to clean said utensils, cans, vessels, rooms or buildings or to so improve the sanitary conditions that the foregoing provisions will not be violated; and if such notice is complied with within ten days no prosecution, civil or criminal, for a violation of this section shall be instituted.

§ 48. **Receptacles to be cleansed before returning; receptacles may be seized; evidence; violation.** Whenever any can or

receptacle is used for transporting or conveying milk, cream or curd to market for the purpose of selling or furnishing the same for consumption as human food, or for manufacturing into human food, which can or receptacle, when emptied, is returned or intended to be returned to the person so selling, furnishing or shipping such substance to be again thus used, or which is liable to continued use in so transporting, conveying, selling or shipping such substance as aforesaid, the consumer, dealer or consignee using, selling or receiving the milk, cream or curd from such can or receptacle, shall, before so returning such can or receptacle remove all substances foreign to milk therefrom, by rinsing with water or otherwise. When any such milk, cream or curd is sold within any city of this state or shipped into any such city, the fact of such shipment or sale shall be prima facie evidence that the same was so shipped or sold for consumption as human food or to be manufactured into human food. When any such can or receptacle is returned or delivered or shipped to any person or creamery so selling such substance within, or shipping the same into such city, it shall be deemed that such can or receptacle is liable to such continued use in so selling or shipping such substance therein for consumption as human food within the meaning and purposes of this article. No person shall place or suffer to be placed in any such can or receptacle any sweepings, refuse, dirt, litter, garbage, filth or any other animal or vegetable substance, nor shall any such consignee or other person through himself, his agent or employee, bring or deliver to any person or railroad or other conveyance any such can or receptacle for the purpose of such return, or any milk, cream or curd can or receptacle for the purpose of delivery or shipment to any person or creamery engaged in so selling or shipping such substances for consumption as human food, which can or receptacle contains such foreign substance or which has not been rinsed as herein provided. The word "curd" as used in this article applies to the substance otherwise known as "pot cheese" or "cottage cheese." Whenever any such can or receptacle is used, returned, delivered or shipped in violation of this article every such use, return, delivery or shipment of each such can or receptacle shall be deemed a separate violation thereof. Such cans or receptacles so used, returned, delivered or shipped in violation of this article may be seized by the commissioner, his assistants or agents and held as evidence of such violation.

§ 49. **Insanitary cans and receptacles condemned.** All cans, or receptacles used in the sale of milk, cream or curd for consumption, or in transporting or shipping the same to market or the delivery thereof to purchasers for consumption as human food, when found by the commissioner or his assistants or agents to be in unfit condition to be so used by reason of being worn out, badly rusted, or with rusted inside surface, or unclean or insanitary or in such condition that they can not be rendered clean and sanitary by washing, and will tend to produce or promote in milk, cream or curd when contained therein, bad flavors, unclean or unwholesome conditions favorable to unhealthfulness

or disease, shall be condemned by the commissioner or his assistants or agents. § 50.⁵ **Prohibiting the sale of adulterated milk and adulterated cream and regulating the sale of milk and cream mixed.** No person shall sell or exchange or offer or expose for sale or exchange, any unclean, impure, unhealthy, adulterated or unwholesome milk or any cream from the same, or any unclean, impure, unhealthy, adulterated, colored, or unwholesome cream, or sell or exchange, or offer or expose for sale or exchange, any substance in imitation or semblance of cream, which is not cream, nor shall he sell or exchange, or offer or expose for sale or exchange any such substance as and for cream, or sell or exchange, or offer or expose for sale or exchange any article of food made from such milk or cream or manufacture from any such milk or cream any article of food. No person shall sell or exchange or offer or expose for sale or exchange any products as and for "milk or cream" containing anything except pure milk and cream mixed together and which does not contain at least ten per centum of milk fat. Any person delivering milk, cream, or "milk and cream" to any butter or cheese factory, condensary, milk gathering station or railway station to be shipped to any city, town or village shall be deemed to expose or offer the same for sale whether the said milk is delivered or consigned to himself or another. Each and every can thus delivered, shipped or consigned, if it be not pure milk, must bear a label or card upon which shall be stated the constituents or ingredients of the contents of the can.

§ 51. **Inspection; how conducted.** When the commissioner, an assistant commissioner, or any person or officer authorized by the commissioner, to examine or inspect any milk, shall in discharge of his duties take samples of such product, he shall before taking a sample, request the person delivering the milk or who has charge of it at the time of inspection, to thoroughly stir or mix the said milk before the sample is taken. If the person so in charge refuses to stir or mix the milk as requested, then the person so requesting shall himself so stir and mix the milk before taking the sample, and the defendant shall thereafter be precluded from introducing evidence to show that the milk so taken was not a fair sample of the milk delivered, sold, offered or exposed for sale by him. The person taking the sample of milk for analysis shall take duplicate samples thereof in the presence of at least one witness, and he shall in the presence of such witness seal both of such samples, and shall tender, and, if accepted, deliver at the time of taking one sample to the manufacturer or vendor of such product, or to the person having

⁵ Section 50 is amended by L. 1922, ch. 364, post.

custody of the same, with a statement in writing of the cause of the taking of the sample. In taking samples of milk for analysis at a creamery, factory, platform or other place where the same is delivered by the producer for manufacture, sale or shipment, or from a milk vendor who produces the milk which he sells, with a view of prosecuting the producer of such milk for delivering, selling or offering for sale adulterated milk, the said commissioner or assistant or his agent or agents shall within ten days thereafter, with the consent of the said producer, take a sample in a like manner of the mixed milk of the herd of cows from which the milk first sampled was drawn and shall deliver the duplicate sample to the said producer and shall cause the sample taken by himself or his agent to be analyzed. If the sample of milk last taken by the commissioner or his agent or agents shall upon analysis prove to contain no higher percentage of milk solids, or no higher percentage of fat than the sample taken at the creamery, factory, platform or other place, then no action shall lie against the said producer for violation of subdivisions one, two, three, seven and eight of section forty-six of this chapter. In taking a second sample as above set forth from the mixed milk of the herd, it shall be the duty of the commissioner to have an assistant, agent or agents present during the entire time in which the said cattle are being milked to observe closely so as to be sure that the milk thus to be sampled is not adulterated and to see that it is thoroughly mixed so that the sample taken shall be a fair sample of the average quality of the mixed milk of the entire dairy or herd of cows of said producer. If, however, the said producer refuses to allow such examination of the milk produced by his dairy, then he shall be precluded from offering any evidence whatever tending to show that the milk delivered by him at the said creamery, factory, platform or other place was just as it came from the cow. If the said producer does permit such examination, the commissioner shall, upon receiving application therefor, send to said producer a copy of the analysis of each of the samples of milk so taken and analyzed as above provided. If a sample of milk shall have been taken by the commissioner or by his orders or directions from any dairy within this state and an analysis thereof has been made by the commissioner or by his authority, any person who is or was buying milk from the said dairy at or subsequent to the time of such taking, may apply to the commissioner for a copy of the analysis of the said sample of milk so taken and the commissioner shall thereafter furnish the said applicant with such copy.

§ 52. **Presumptions in regard to cream and skim milk.** When cream is separated or skimmed from milk at any station or establishment where milk is received from producers for the purpose of selling the same or shipping the same to market for consumption as food and the supply of milk on hand thereat at the time of the next regular daily shipment of milk therefrom, consisting of the total amount of milk in such shipment, together with that remaining on hand immediately after such shipment,

is not thereby decreased or correspondingly less than the total quantity received during any period extending from some point of time before such skimming was done until the time of such shipment, together with the amount of milk on hand at the commencement of such period, and such decrease is not equal in amount to the quantity of milk that must have been used in so separating such cream in addition to the quantity otherwise there used or disposed of during such period, such fact is conclusive that skim milk or other foreign substance was added to such milk supply within such period and shall be presumptive evidence within the meaning of this section that the same was added to each can or vessel of milk in such shipment. When cream or skim milk is found to have been on the premises of any such station or establishment or is sold or shipped therefrom, such cream or skim milk so found or so sold or shipped therefrom shall be presumed to have been produced by separating or skimming at such station or establishment. In any action or proceeding relative to the adulteration of milk by removing cream therefrom or adding skim milk or other foreign substance thereto, it shall be presumed that when cream has been produced by so skimming or separating or butter has been manufactured, there was made at least five quarts of milk in the production of each quart of cream so produced and there was necessarily so produced thereby at least four quarts of skim milk to each quart of cream so produced, and that there was used at least nine quarts of milk in the production of each pound of butter so manufactured.

No person shall sell, supply or bring to be manufactured to any butter or cheese factory or to any plant or place which manufactures a food product from milk or which ships or sells milk for consumption any milk that is sour or from which has been kept back any part of the milk commonly known as strippings, except pure skim milk

to skim-cheese factories. The owner or proprietor or the person having charge of any such manufactory, plant or place where milk is received for any such purpose, not buying all the milk used by him, shall not use for his own benefit, or allow any of his employees or any other person to use for his own benefit, any milk, cream, butter or cheese or any other product thereof, brought to such factory, without the consent of the owners of such milk or the products thereof. Every such manufactory, plant or place not buying all the milk used, shall keep a correct account of all the milk or cream daily received, of the number of packages of butter and cheese made each day, and the number of packages and aggregate weight of cheese and butter disposed of each day; which account shall be open to inspection to any person who delivers milk to such manufactory, plant or place. Every purchaser or receiver of milk from the producer thereof, for manufacturing purposes or for reselling the same, shall on written request therefor, tender daily thereafter at time of delivery to such producer, or to the person delivering such milk to such purchaser in behalf of such producer, a written statement of the amount of milk so received or purchased until or unless such producer notifies such purchaser in writing that he no longer desires such statement; such statement shall give, first, the name of the producer or seller, second, the date of delivery, third, the amount so delivered, fourth, shall be signed by the purchaser or his duly authorized representative; such statement shall be given in the terms of the unit used as a basis for determining the value thereof. Such purchaser or receiver shall, at each periodical time of payment for such milk, give each such producer, so delivering milk, a statement showing the amount of milk delivered during the periodical time for which payment is made, and the average per centum of butter fat test of same, provided payment is made on basis of butter fat content.

Any person having charge of a milk gathering station or establishment as aforesaid shall keep a true and correct monthly record of the receipts of milk or other dairy products received at such station or establishment, and also a true and correct monthly record of all sales or shipments of milk, cream or other dairy products shipped or sold from such station or establishment, and shall also keep a true and correct monthly record of the amount of skim milk produced in such station or establishment and of the disposition of said skim milk. Such record shall be preserved at such station or establishment for at least two years after the same shall have been made and such records shall at all times be open to the inspection of the commissioner, his assistants or agents. When cream is sold or shipped from any such station or establishment so selling or shipping milk for consumption as aforesaid, each original bottle or package of one quart or less of cream so shipped or sold shall bear a label securely attached to the side of such bottle or package on which shall be conspicuously printed the word "cream" in black letters of at least one-fourth of an inch in length or else the word "cream" shall be blown in the side of such bottle in plain raised letters of at

least one-half an inch in length, and the top and side of each and every other original package or can containing cream or original crate or case containing bottles of cream so shipped or sold shall bear a label securely attached on which shall be conspicuously printed the word "cream" in black letters of at least one inch in length and also a plainly written or printed statement on the label stating from whom and what station the same is shipped and the name of the consignee and point of destination and date on which the cream therein was produced by such separation or skimming. The shipment of each and every such original package of cream so shipped and not so labeled as herein required shall constitute a separate violation.

§ 56. **Purchase of milk and cream on butter-fat test.** Whenever such manufacturers or owners of such manufactories, plants or places receive or purchase milk or cream upon the basis of the amount of milk fat contained therein and use for ascertaining the amount of such fat what is known as the Babcock test, or whenever the proceeds of co-operative creameries or such manufactories, plants or places are allotted on the basis of determinations of milk fat by the Babcock test, the bottles and pipettes used in such test shall conform to the standard specifications promulgated by the United States Bureau of Standards and shall before use be examined by the director of the New York agricultural experiment station. If such bottles are found to be properly constructed and graded so as to accurately show the amount of fat contained in milk or cream, each of them shall be legibly and indelibly marked "S. B." No bottle shall be so marked except as herein provided or used in any such test by such manufacturers or owners or proprietors of such manufactories, plants or places, unless so examined and marked. The acid used in making such test shall be of the required strength to accurately determine the amount of fats in milk or cream and shall be examined from time to time by competent chemists employed by the department of farms and markets and if found not to be of sufficient strength the use of such acid shall be prohibited. No person or persons receiving or purchasing milk or cream upon the basis of the amount of fat contained therein, shall credit any patron or patrons delivering milk or cream thereto with a greater or lesser percentage or average percentage of fat than is actually contained in the milk or cream so delivered. The department of farms and markets or persons employed by it for that purpose may at any time assist in making tests of milk

or cream received at such manufactories, plants or places for the purpose of determining the efficiency of tests usually made at such manufactories, plants or places. No person shall use other than standard bottles or acid which is of the required strength to accurately determine the amount of fats in milk or cream. Corporations, associations or persons hereafter buying milk or cream from producers of milk or cream to be paid for on the basis of the percentage of milk fat contained therein and for that purpose taking samples therefrom to form a composite sample to be tested periodically to determine its value on such basis, shall, at the request of the producer, take such samples in duplicate and subject them to the same treatment. At the end of the period for which the composite sample is being taken such corporation, association or person shall tender same to the producer thereof or to his authorized agent and give such producer, or his said authorized agent, the choice of one of the two composite samples so taken, both of which shall be sealed. Such producer is hereby permitted to send such duplicate composite sample so received to the head of the department of dairy industry of the college of agriculture at Cornell University within ten days from the receipt thereof, properly marked for identification, and shall accompany same with his name and post office address. Such department head shall cause such sample to be tested for the per centum of milk fat and shall send a report of such test to the producer from which it was received within ten days, or as soon thereafter as possible. Corporations, associations or persons hereafter testing samples of milk or cream taken from milk or cream bought or received from producers, where the value thereof is to be determined by the butter fat content, shall reseal the remaining portion of the sample from which the test was made, and in the case of milk keep the same for at least ten days and in the case of cream keep the same for at least one day after the making of such test for the purpose of permitting the commissioner or his duly authorized representative to examine and test the same.

Corporations, associations or persons making such tests of samples of milk or cream so purchased or received shall, immediately after such tests are completed, prepare a list containing the names or numbers of the producers whose milk or cream was so tested and place opposite each such producer's name or number the percentage of fat found to have been contained in the sample of milk or cream representing the milk or cream delivered by each such producer. Such lists so prepared shall be made with indelible pencil or ink and shall be filed in the plant or place where such milk or cream is bought or received, and each such list shall be duly signed by the person making such tests and preparing such list, and such person shall place beneath his signature the number of the state license under which he is testing. All such lists shall be kept as a record for at least one year and shall be open to examination at all times by the commissioner or his duly authorized representative. At any time,

upon request of any producer, the purchaser or receiver of such milk or cream shall permit such producer to examine such part of said record as contains information concerning the samples of milk or cream representing the milk or cream delivered by such producer. Without the written permission of the commissioner, no sample of milk or cream so tested by the purchaser or his representative shall be tested at a plant or place other than the one where received, nor without such permission shall any such sample of milk be removed from any such plant or place within ten days from the date of testing, nor shall any such sample of cream be removed therefrom within one day from such date of testing.

§ 57. **Licensing of persons in charge of milk gathering stations and of persons making butter-fat tests.** Any person having charge of any milk gathering station where milk is received from producers for the purpose of selling the same for consumption or shipping the same to market for consumption as food before taking such charge or operating or working as such agent or person in charge shall apply to the commissioner for a license to so work or operate or have charge, and shall at the time of making such application, file with the commissioner a statement under oath, setting forth the fact that he will not while having charge of or operating any such milk gathering establishment or while employed therein adulterate or suffer or permit the adulteration of any such milk or any product thereof during the term for which he may be licensed. After the applicant shall have complied with the foregoing provisions of this section, the commissioner upon being satisfied that the applicant is a person of good moral character and a qualified and proper person to so have charge of or operate any such milk gathering station or establishment shall issue to said applicant a license, which shall qualify him to have charge of any such milk gathering station or establishment. The person regularly doing the work of receiving, caring for and shipping the milk at any station or establishment, or in case more than one person is so employed then the foreman in charge of such works shall be deemed to be a person in charge of such station or establishment within the meaning and purposes of this section.

Any person testing milk or cream by the Babcock method where the result of such test is used as a basis for payment, or for official inspection, or for public record, shall first obtain from the commissioner a license to do such testing. Such license shall be granted upon satisfactory evidence of good moral character and the ability to make such tests based upon satisfactorily passing an examination set by the commissioner. Such examination shall be based upon methods for making the Babcock test as outlined by the New York state college of agriculture and the commissioner.

Each license certificate issued under the provisions of this section shall be kept at the station or establishment where the licensee is employed or is engaged in testing milk or cream and shall be open to the inspection of the commissioner and the public.

Licenses under the provisions of this section shall be granted for one year and be renewable at the discretion of the commissioner without further examination of the licensee.

A license granted under the provisions of this section may be revoked by the commissioner, after hearing given upon notice to the licensee, upon evidence of dishonesty, incompetency, inaccuracy or of a violation of any provision of this article.

§ 58. **Regulations in regard to evaporated or condensed milk.** No evaporated or condensed milk shall be made or offered or exposed for sale or exchange unless manufactured from pure, clean, healthy, fresh, unadulterated and wholesome milk from which the cream has not been removed either wholly or in part, except for the purpose of standardizing, in which case such standardized evaporated or condensed milk shall contain the proportionate quantity of solids and the proportionate amount of fats required in evaporated or condensed milk. Evaporated or condensed milk manufactured, sold or exposed for sale or exchange in hermetically sealed cans shall contain milk solids in quantity not less than twenty-five and five-tenths per centum, and not less than seven and eight-tenths per centum milk fat. Sweetened condensed milk manufactured, sold or exposed for sale or exchange in hermetically sealed cans shall contain not less than twenty-eight per centum milk solids and not less than eight per centum milk fat. No person shall manufacture, sell or offer for sale or exchange in hermetically sealed cans, any evaporated or condensed milk unless put up in packages upon which shall be distinctly labeled or stamped the name of the person or corporation by whom made and the brand by which or under which it is made. When evaporated or condensed milk shall be sold from cans or packages not hermetically sealed, the producer shall brand or label the original cans or packages with the name of the manufacturer of the milk contained therein, provided, however, that no unsweetened evaporated or condensed milk shall be sold or offered for sale in containers not hermetically sealed, unless the proportion of milk solids shall be the equivalent of eleven and one-half per centum of milk solids in crude milk, and of which milk solids twenty-five per centum shall be fats.

Whenever any such disease shall exist or be brought into or break out in this state, the commissioner shall take measures promptly to suppress the same and to prevent such disease from spreading. He may issue and publish a notice stating that a specified infectious or communicable disease exists, may exist or has recently existed in the state, or in any designated county or other geographical district thereof, and warning all persons to seclude, in the premises where they may be at the time, all animals within this state, or within such county or district, or an adjoining county or district, that are of a kind susceptible to contract such disease; and ordering all persons to take such precautions against the spreading of the disease as the nature thereof may, in his judgment, render necessary or expedient and which he may specify in such notice. Such notice shall be published in such manner as the commissioner may designate. The commissioner may cause such notice to be posted on public service poles other than those carrying wires transmitting electricity for light or power, or on fences on the highway or on buildings abutting upon the highways, provided, if such fences or buildings be personally owned, the owners thereof consent to such posting. No person shall tear down, mutilate, deface or destroy any such notice or order issued by the commissioner and posted, as provided herein, during the pendency of such notice or order. The commissioner may alter or modify, from time to time, as he may deem expedient, the terms of any notice or order issued or made pursuant to this article and may at any time cancel or withdraw the same. The commissioner may, in behalf of the state, accept, in whole or in part, rules and regulations adopted by the secretary of agriculture of the United States under any act of congress providing for the control, suppression or eradication of communicable diseases in domestic animals, and he may co-operate with the authorities of the United States government within this state in the carrying out of such rules and regulations and the enforcement of the provisions of any such act so passed which are not in conflict with the statutes of this state.

Any person importing or bringing into this state neat cattle for dairy or breeding purposes shall report immediately upon bringing such cattle into the state to the department, in writing, stating the number of cattle thus brought in, the places where they were procured, the lines over which they were brought, their destination within the state and when they will arrive thereat; and if there be filed with the department at the time of filing such report or within ten days thereafter, a certificate by a duly authorized veterinary practitioner approved by the authorities of the state in which he resides or by an authorized veterinary inspector of the United States bureau of animal industry to the effect that he has duly examined such animals and that they are free from any infectious or communicable disease, the commissioner may issue a permit to such person to remove such cattle immediately. Otherwise such person shall detain such animals at the point of destination for at least twenty days for inspection or examination by the commissioner or his duly authorized agent. The provisions of this subdivision relating to advance reports to the department shall not apply to cattle imported into this state at a point where there is federal inspection.

§ 78.¹³ **Examination of cattle.** The commissioner may cause a physical examination to be made by competent veterinarians of dairy cows whose milk is marketed in liquid form or manufactured into butter, cheese or other food for human consumption, where the conditions are such as to make it necessary in order to prevent the products containing pathogenic bacteria, and he may cause a bacteriological test to be made of the secretions or excretions of any herd or herds of dairy cows or of any cow or cows within the state. Such physical examinations may be made as frequently as available funds appropriated will permit, and as the conditions necessitate. An examination made by any qualified and approved examiner may be accepted by the commissioner. Except in advanced cases, if an animal is found to have tuberculosis the commissioner shall not take any action based upon such physical examination unless, the tuberculin test be applied and such test confirms the result of the physical examination. If from such examination an animal be deemed to be infected with

tuberculosis or any infectious or communicable disease or its condition be such as to render it undesirable for the production of milk or a menace to the health of other animals or persons, such animal shall be immediately removed from the herd, slaughtered or disposed of as the commissioner may prescribe according to the provisions of this article. If the owner or custodian of the herd so examined makes written request, the commissioner upon the recommendation of a veterinarian making such examination shall deliver or forward to such owner or custodian of such herd so examined a certificate stating that such examination has been made, the date thereof and such other information as may be deemed necessary by the commissioner. The commissioner may make such regulations as he may deem necessary for the classification of herds examined under this section and is hereby authorized and empowered, within the limits of his appropriation, to make arrangements at laboratories, either public or private, for the bacteriological tests above provided for.

1. The application therefor shall be upon a blank form provided by the commissioner and shall include an agreement on the part of the owner of the herd to improve faulty sanitary conditions, to disinfect his premises if diseased cattle be found, and to follow directions of the commissioner designed to prevent the reinfection of the herd and to suppress the disease and prevent the spread thereof.

2. The commissioner shall cause such cattle to be examined accordingly, subject to the provisions of this article, and if any animal responds to such test, he may cause it to be slaughtered or held in strict quarantine.

3. If after examination an animal be found to be suffering from tuberculosis such animal shall be slaughtered under the provisions of this article, or the commissioner may enter into a written agreement with the owner for keeping such animal in segregation or the commissioner may, if the condition of such animal warrants it, consign such animal to any one of the experiment stations or farms owned or controlled by the state, or by any county of the state, or to the farms of such public institutions in the state as the commissioner shall approve, or to hospitals, sanitariums or other institutions existing in whole or in part for the purpose of suppressing tuberculosis, there to be kept and used for breeding, dairy or experimental purposes under regulations to be prescribed by the commissioner.

4.¹⁴ Subject to the rules of the commissioner an animal found to be diseased after such examination may continue to be used for breeding purposes and its milk may be used after proper pasteurization at such temperature and for such time as the commissioner may prescribe except that such milk may be used without

pasteurization for the feeding of calves or hogs, provided such calves or hogs so fed are killed under inspection approved by the commissioner.

5.¹⁵ The young of any such diseased animal shall immediately be separated from its mother and shall not be permitted to receive or be fed the milk from such affected animal so separated and quarantined until such milk has been pasteurized as herein provided, unless such calf is to be killed as provided in the last preceding subdivision of this section.

6. The commissioner may make rules for classifying herds tested under this section and for the purpose of giving recognition to herds which are in a healthy condition, he is hereby authorized to issue such certification as he may deem proper in relation to such herds.

If a third arbitrator be chosen he shall be paid by the state not more than five dollars per day and necessary expenses. Appraisers of condemned animals and arbitrators appointed under this article may administer oaths and examine witnesses for the purpose of determining the value of animals to be appraised under this article.

§ 84. **Certificate of appraisal.** The appraiser shall execute and deliver to the owner of a condemned animal or his legal representative a certificate stating the value thereof. Whenever in his judgment necessary for the more speedy and economical suppression or prevention of the spread of any such disease he may cause to be slaughtered and afterward disposed of, in such manner as he may deem expedient, any animal or animals which by contact or association with diseased animals or other exposure to infection or contagion may be considered or suspected to be liable to contract or communicate the disease sought to be suppressed or prevented. ment of indemnity to owners of animals killed or appropriated by the state under the provisions of this article:

1.¹⁷ The value of an animal shall be taken to be the appraised value thereof except that for the purposes of subdivisions two, three, four and five of this section such value shall in no case exceed the sum of one hundred and twenty-five dollars for a registered purebred bovine animal or for a purebred bovine animal eligible to registry for which application has been duly and properly made for registration prior to the appraisal, and for any other bovine animal shall not exceed the sum of seventy-five dollars nor shall it exceed one hundred and twenty-five dollars for any equine animal. This provision shall apply to all claims which have not been liquidated at the time of the passage of this act as well as to all claims which shall hereafter accrue.

2. If upon post-mortem examination an animal is found not to have the disease for which killed or any dangerously infectious or communicable disease, the owner shall be allowed the value of such animal at the time of killing, unless such animal was killed on account of violation of quarantine regulations, as provided in this article.

3. If an equine animal be found upon post-mortem examination to have been suffering from glanders not manifest by physical symptoms, the owner thereof shall be paid therefor ninety per centum of its value. If the animal has glanders showing physical symptoms the owner thereof shall be paid therefor twenty-five per centum of its value.

4. If a bovine animal be found upon post-mortem examination to have been suffering from tuberculosis, or if such animal be taken over by the state as provided by this article, the owner thereof shall be paid ninety per centum of its value.

5. No animal killed or taken under the provisions of this article shall be paid for as herein provided unless, if a bovine, it shall have been within the state of New York for at least six months, and if an equine for at least twelve months.

6.¹⁸ The commissioner is hereby authorized to make rules in reference to the official inspection of the carcasses of animals so killed, and to provide for the suitable marking or branding of carcasses passed or condemned. The commissioner may make such rules as he deems necessary or expedient for the proper disposal of carcasses or parts thereof. If the meat of a slaughtered bovine animal shall be passed for use as food under official regulations, the same and all other parts of the animal shall be and remain the property of the owner of the slaughtered animal. In all other cases, the carcass and all parts of the animal, or the net proceeds of the sale thereof, shall be and remain the property of the owner of the slaughtered animal in addition to the indemnity provided herein, provided, however, that in neither case shall the total amount received by the owner of the animal from the proceeds of the carcass and parts thereof and the indemnity by the state and the indemnity from the federal government, if any, in

¹⁸ Subd. 6 is amended by L. 1922, ch. 255, post.

the aggregate exceed the appraised value of the animal at the time of slaughter. If the proceeds of such sale and such indemnities do exceed the appraised value of the animal at the time of slaughter, then the indemnity paid by the state shall only equal the difference between the aggregate of such proceeds or value of the parts and carcass thereof, and the indemnity received from the federal government, if any, and the appraised value of such animal at the time of slaughter. The carcass, and all parts of such animal, shall be disposed of under rules or regulations made by the commissioner.

7. No indemnity shall be paid to any person who shall have wilfully concealed the existence of disease among his animals or upon his premises, or who in any way by act or by wilful neglect has contributed to spread the disease sought to be suppressed or prevented, or who shall have wilfully neglected to take necessary precaution or obey instructions given him by the commissioner or neglected to assist in the control or eradication of any infectious or communicable disease among his animals.

8. Except as herein provided no indemnity shall be paid for any animal which upon post-mortem examination is found to have the disease on account of which it was killed, or any dangerously infectious or communicable disease that would warrant the destruction of such animal.

9. If the disease known as apthous fever be found to exist within this state and the commissioner deems it necessary to properly control, suppress or eradicate such disease, to order the slaughter of domestic animals or the destruction of other property or both, the owner of animals so slaughtered or property so destroyed shall receive indemnity in the manner following: The amount to be paid for each bovine animal so destroyed shall be fixed in the same manner as provided for in this section but shall not exceed the sum of two hundred dollars for any one bovine animal so taken. The value of animals so destroyed and the amount due owners as provided herein, less the amounts paid or to be paid by the federal government, shall be paid upon the audit and warrant of the comptroller to owners entitled thereto in the same manner as provided in the last preceding section.

§ 89. **Disposition and use of tuberculin and mallein.** The commissioner is hereby authorized to make such rules and promulgate such orders for the proper control, use or distribution of tuberculin or mallein as he may deem necessary. The following general provisions shall govern the disposition and use of tuberculin and mallein within the state:

Source.—
Agricultural law,
§ 103.

1. All tuberculin or mallein sold, given away or used, shall bear a label stating the name and address of the manufacturer, the degree of strength and dosage recommended, and the date of its preparation.

2. All tuberculin or mallein sold or given away for use in testing bovine or equine animals shall be reported, in writing, to the commissioner within one week after such sale or gift is made. Such report shall be signed by the person making the gift or sale and shall state the name and address of the person to whom such

tuberculin or mallein has been sold or given, and the amount supplied.

3. Any person, firm, corporation or institution bringing or causing tuberculin or mallein or a biological product containing living pathogenic organisms to be brought into the state to be used therein in the treatment of or administration to domestic animals shall, within one week thereafter, make a report thereof to the commissioner stating the manufacturer thereof, the quantity so brought in and giving such other information in relation thereto as the commissioner may request.

4. The commissioner shall print, in appropriate form, blanks for making and keeping records of such tests and other necessary data for the purposes of this article.

5. Any person using tuberculin or mallein in testing animals shall keep a correct record thereof, and, if requested by the commissioner, any person, firm or corporation making such tests shall within one week thereafter report to the commissioner giving a detailed account of the tests thus made, including the description of animals, the location of the farm or farms upon which tests were made, and the name and address of the owner or custodian. If the commissioner desires to cause a physical examination to be made of any animal so tested, or a bacteriological examination of its milk to be made, the owner or custodian of any such animal that has reacted shall indicate to the commissioner, or to the person designated by him, any animal that shall have been subjected to any such test and give such information as the commissioner may direct with reference thereto, or of previous tests of such animal and such other information relating thereto as the commissioner may require.

6. If such tests be made by a nonresident of the state, the owner or custodian of the animals thus tested shall make such report to the commissioner as he may require.

7. No person shall knowingly inject into any bovine or equine animal as or for tuberculin or mallein any substance which is not tuberculin or mallein.

8. No person shall treat, except by consent of the commissioner for experimental purposes, any bovine or equine animal with any material or substance, or in any manner, for the purpose or with the effect of preventing a normal reaction on the part of such animal to the tuberculin or mallein test.

9. No person shall give a certificate or statement showing or tending to show that an animal has been tested or examined and found not affected with tuberculosis or glanders or other communicable disease unless the character of such test or examination is stated, and was made in a proper way, and that upon such test or examination such animal failed to give any evidence of such disease.

§ 90. **Violations of rabies quarantines; release and impounding of dogs.** If the commissioner shall quarantine any particular districts or territory for the purpose of stopping or preventing the spread of the disease known as rabies, and if any dog be found within the said quarantine district in violation of

said quarantine or regulation, any person may catch or cause to be caught such dog and have him impounded or confined. If such dog is thereafter not found to be affected with the disease known as rabies, and satisfactory proof of such fact is presented to the commissioner, he may release the said dog to the owner thereof upon due application therefor. Upon receipt of such release the owner of such dog shall pay a penalty of ten dollars to the treasurer or chief officer of the city, if such district be located wholly within a city, and otherwise to the treasurer of the county in which such dog is impounded. Upon due proof of such payment the owner thereof shall be entitled to the possession of such dog. If application for such release be not made to the commissioner within three days after such dog is found not to be affected, or if such penalty be not paid by the owner within three days after the receipt of such release, or if it is found impracticable after reasonable effort to catch and impound such dog which is within said quarantine district in violation of such quarantine or regulation, then any person may kill or cause to be killed such dog, and shall not be held liable for damages for such killing.

§ 91. **Shipping, slaughtering and selling veal for food.** No person shall slaughter or expose for sale, or sell any calf or carcass of the same or any part thereof, unless it is in good healthy condition. No person shall sell or expose for sale any such calf or carcass of the same or any part thereof except the hide, unless it was, if killed, at least three weeks of age at the time of killing. No person or persons shall bring or cause to be brought into any city, town or village any calf or carcass of the same or any part thereof for the purpose of selling, offering or exposing the same for sale, unless it is in a good healthy condition, and no person or persons shall bring any such calf or carcass of the same or any part thereof except the hide into any city, town or village for the purpose of selling, offering or exposing the same for sale, unless the calf is three weeks of age, or, if killed, was three weeks of age at the time of killing, provided, however, that the provisions of this section shall not apply to any calf or carcass of the same or any part thereof, which is slaughtered, sold, offered or exposed for sale, for any other purpose than food. Any person or persons exposing for sale, selling or shipping any calf or carcass of the same will be presumed to be so exposing, selling or shipping the said calf or carcass of the same for food. Any person or persons shipping any calf for the purpose of being raised, if the said calf is under three weeks of age, shall ship it in a crate, unless said calf is accompanied by its dam. Any person shipping calves under three weeks of age for fertilizer purposes must slaughter such calves before such shipping. Any person or persons duly authorized by the commissioner may examine any calf or veal offered or exposed for sale or kept with any stock of goods apparently exposed for sale, and if such calf is under three weeks of age, or the veal is from a calf killed under three weeks of age, or from a calf in an unhealthy condition

§ 92. **Shipping veal; receiving veal for shipment by common carriers.** It shall be unlawful for any corporation, partnership, person or persons to ship to or from any part of this state any carcass or carcasses of a calf or calves or any part of such carcass except the hide, unless they shall attach to every carcass or part thereof so shipped, in a conspicuous place, a tag, that shall stay thereon during such transportation, stating the name or names of the person or persons who raised the calf, the name of the shipper, the place of shipping and the destination and the age of the calf. No person or persons shall mutilate or in any way disfigure such tag in such way as to conceal information given thereon or render the same illegible. The expense incurred by any such officer in carrying out and enforcing the provisions of such notice, order or regulation shall be a state charge, to be audited by the commissioner and paid by the state treasurer on the warrant of the comptroller in the same manner as other state charges are paid, notwithstanding the provisions of any local or special act fixing or limiting the compensation or expenses payable by the county to its sheriff, under-sheriff or a deputy sheriff.  § 182.

§ 107. **Dogs to be licensed; fees.** A person who owns, harbors or keeps a dog shall obtain a license therefor, as provided herein, and shall pay the following fees: (1) two dollars for each male dog and spayed female dog; (2) five dollars for each bitch; (3) twenty dollars for a kennel of dogs, or such sum not in excess of such sum of twenty dollars as will equal two dollars for each dog over six months old harbored or kept in such kennel, for which a kennel license shall be given as hereinafter provided. Before any person shall be entitled to obtain a license for a spayed female dog at the reduced fee herein provided, he shall produce and deliver to such town or city clerk an affidavit made by the owner or a certificate in writing signed by a duly licensed veterinary surgeon showing that such female dog has been spayed. There shall be paid to the town or city clerk, in addition to each license fee, the sum of twenty-five cents as a registration fee, for the services of such clerk.

Application for a license shall be made to the clerk of the town or city in which the dog is harbored or kept. Such application shall be in writing and shall state the name, sex, breed, age, color and marking of the dog for which a license is sought.

When the applicant for such license shall have complied with

the provisions of this section, the town or city clerk shall thereafter issue a license to such applicant and shall deliver to such applicant a tag bearing the same number that the license bears.

Licenses obtained hereunder subsequent to the year beginning March first, nineteen hundred and twenty, shall be applied for on or before July first and shall be for a period of one year. Licenses thereafter issued shall be for the period from July first until June thirtieth in each following year. Licenses shall not be required for dogs under the age of four months that are not allowed to run at large, or under the age of six months if kept in a kennel owned by the breeder thereof, providing such dogs are not allowed to run at large. If such dog shall become of the age of six months if kept in a kennel, after the first day of March, nineteen hundred and eighteen, then such dog shall be subject to a license as herein provided. Each license of a dog first issued shall take effect when issued, and shall expire on the last day of June following its issuance. Each license in renewal of a license already issued shall be for a term of one year beginning on July first, except as otherwise herein provided.

§ 108. **Kennel licenses.** The owner of a kennel may apply for and obtain a kennel license, which shall be in lieu of the license issued under this chapter for each dog harbored or kept in such kennel. Upon the procuring of such license for a kennel, the owner or owners thereof shall be exempt from any further license fee in respect to such dogs for the year for which such license is issued. The applicant shall present with his application for a kennel license a registry certificate of the registry association registering the dogs in such kennel. A copy of such certificate shall be filed with the city or town clerk. If the owner of a kennel shall harbor or keep a dog which is not covered by such a certificate, such dog shall be licensed separately and the same fee paid as in the case of other dogs. A kennel license shall continue for the same period as licenses issued under the preceding section.

The town or city clerk shall also be paid by the person to whom the same is issued a tag fee of twenty-five cents for each tag issued.

A new tag with a new number shall be furnished to the owner of a licensed dog by the city or town clerk, in place of the original tag, upon presentation of the license and proof of the loss of such original tag. An owner of a dog who, after the service of such order, causes or permits such dog to run at large in violation of such order, shall be subject to a penalty of twenty-five dollars for each offense. Whenever in the judgment of the department of farms and markets other regulations in this article for the supervision of dogs and the protection of domestic animals and fowls have proved inadequate for such purposes in a town or county or part thereof, the said department may make and publish an order that dogs in such town or county, or part thereof, shall be securely confined between sunset and one hour after sunrise during such portion of the year as may be deemed

If any owner of a dog, or person harboring the same, refuse or neglect to confine his dog as required by such order he shall forfeit the sum of ten dollars to be recovered by the department of farms and markets, and any representative of the department or other peace officer shall seize and impound a dog permitted to run at large in violation of said order and hold the same until said penalty is paid, and if not paid within five days, sell or kill said dog in the same manner as if the dog had not been licensed and tagged under the provisions of this article, for which services he shall be paid two dollars for seizure and two dollars for killing and disposing of the carcass of such dog. The duly designated representative of the department or any peace officer shall, and any other person may, kill on sight any dog running at large in violation of this section, provided he shall first have made reasonable effort to secure said dog and failed. When seizure of a dog is made under any of the provisions of this article notice of such seizure shall be immediately given to the owner thereof if he may be found upon reasonable inquiry within the time during which such dog is required to be held prior to his disposal as provided herein. Such notice may be served upon the owner either personally, by registered mail, or in case of the absence of the owner from home, by leaving a copy thereof with the person in charge of the premises where such dog was harbored. Such notice of claim when filed shall set forth the facts, as claimed, including a description of such animals, the time and place where the claimant believed they were attacked, chased, worried, or injured or killed, and such other circumstances in connection therewith as may be within his knowledge. The assessor receiving such notice of claim shall immediately give notice thereof to the other assessors of such claim so made. The assessors, or a majority of them, shall, within three days, at a time and place to be designated by them, inquire into the matter, and shall examine the animal or animals alleged to have been injured or killed and, if necessary, examine witnesses in relation thereto. If after such inquiry they shall determine that such animals were so attacked, chased, worried, injured or killed by a dog or dogs, they shall make a report of such fact, the number and kind of such animals, and the amount of damages, if any, caused thereby. It may appoint a committee to conduct such investigation. The board of supervisors, or such committee if appointed, shall cause reasonable notice of the time and place at which the hearing on such investigation will be held to be given to the claimant and the county treasurer in such manner as it may direct. The said board of supervisors may approve, reject or modify the determination of the assessors. The board of supervisors shall render a decision on such review and cause a copy of such decision to be filed with the county treasurer and a copy thereof to be transmitted by mail to the claimant. If at the expiration of the period of twenty days after the mailing by the county treasurer to the claimant of such copy of such report of the assessors no petition for review has been filed in his office, or if a petition for review shall have been so filed, then upon the filing in his office of the decision of the board of supervisors, the county treasurer shall execute a certificate in triplicate containing the name of the owner of such animals and the amount of the damages which have been ascertained as herein provided. One of such certificates shall be filed in the office of the county treasurer, one transmitted to the department of farms and markets and one transmitted immediately by mail to the claimant. If additional or increased damages are claimed on account of a flock of sheep being attacked, chased or worried, accruing subsequent thereto and not apparent at the time of the first appraisal of damages to the flock, a supplemental notice of claim for such damages may be given to one of the assessors who had jurisdiction of the original claim, at any time within six months from the discovery of the original damages. Such supplemental notice of claim shall set forth the facts required to be specified in the original notice and also the facts upon which such additional or increased damages are based. The same proceedings shall be had thereon as in the case of an original claim. The person to whom a certificate allowing any damages shall be issued, or his assignee or legal representative, may present the same for payment and the amount thereof shall be paid to such person or his assignee or legal representatives, by such county treasurer, and the county treasurer shall also pay the assessors their fees as provided herein for passing upon such claim, out of any moneys available therefor, upon a proper receipt being signed by the person or assessor entitled to such payment and upon the presentation of an assignment to the county of the claim for damages against the owner or owners of the dog or dogs causing such damages. § 264.

§ 163. **Damages accruing from sale of trees.** Nothing contained in this chapter shall be construed to deprive a purchaser of any fruit-bearing tree of his remedy at law in a civil action to recover damages sustained by reason of such trees proving untrue to name as specified on the label. Such damages may be recovered in a civil action by the purchaser of such fruit-bearing trees or by his personal representative or assignee at any time prior to the third bearing year, provided the purchaser notifies the seller as soon as he has reason to believe that such trees are not true to name. In any action to recover damages suffered by the purchaser by reason of any fruit tree or trees not being of the name or variety under which they were tagged and sold, the seller shall have the burden of proof in establishing that any contract or any provision of any such contract exempting the seller from liability or limiting his liability was agreed to by the purchaser. In every case of a sale of fruit-bearing trees in lots of twenty-five or more, the seller must at once furnish the purchaser a copy of such contract upon the face of which shall be plainly printed the following: "In any action to recover damages suffered by the purchaser by reason of any fruit tree or trees not being of the name or variety under which they were tagged and sold, the seller shall have the burden of proof in establishing that any contract or any provision of any such contract exempting the seller from liability or limiting his liability was agreed to by the purchaser." The seller must also accompany the shipment of such trees with an itemized list of the same, which list shall also give the name of the county and state where the trees covered by it were grown, the age of the trees, and the name and address of the person for whom the trees were grown, if requested by letter or in writing on the contract by the purchaser at the time of purchase. Within five days after the

receipt by the purchaser of the trees and the list thereof the purchaser shall compare and notify the seller of any discrepancy between the list and the labels on such trees.

§ 164. **Agent to carry certificate of authority.** Any person, firm or corporation acting as agent for another in the sale of fruit-bearing trees in this state shall carry with him, at all times when engaged in selling trees, a certificate in writing signed by his principal and properly acknowledged, showing his authority to act as such agent and upon request shall exhibit the same to the purchaser and shall leave with the purchaser a copy of the contract bearing on its face the clause referred to in the last preceding section. § 165. **The prevention of disease in trees, shrubs, plants and vines and the extirpation of insect pests.** No person shall knowingly or willfully keep any plum, peach, almond, apricot, nectarine or other trees affected with the contagious disease known as yellows. No person shall knowingly or willfully keep any peach tree affected with the disease known as little peach. Nor shall any person knowingly or willfully keep any trees, plants or vines affected or infected with the contagious disease or fungus known as black knot or with any other dangerously injurious fungous growth or any tree, shrub, plant or vine infested or infected with or by the San Jose scale or other insect pest or fungous disease dangerously injurious to or destructive of the trees, shrubs or other plants; every such tree, shrub, plant or vine shall be a public nuisance, and as such shall be abated and no damage shall be awarded for entering upon premises upon which there are trees, shrubs, plants or vines which may be infected with yellows, little peach or black knot or infested with San Jose scale or other insect pest, for the purpose of legally inspecting the same, nor shall any damage be awarded for the destruction by the commissioner or his duly authorized agents, or representatives of such trees, shrubs, plants or vines if necessary or proper to suppress such disease or pest, if done in accordance with the provisions of this article, except as otherwise herein provided. § 166. **Report of existence of disease; destruction or treatment.** Every person, when he becomes aware of the existence of such disease, fungous growth or insect pest in any tree, shrub plant or vine, owned by him, shall forthwith report the same to the commissioner at Albany, New York, and the said commissioner shall take such action as the law provides. If in the judgment of said commissioner or the person or persons representing him, the trees, shrubs, plants, vines or their products, boxes, containers, or packing material so infected, infested or diseased should be destroyed or there is reasonable ground to believe that such trees, shrubs, plants, vines or their products, containers or packing material are or may be so infected, infested or diseased that they should be destroyed, then such destruction shall be carried on and completed under the supervision of the commissioner or the person or persons duly appointed by him and Source.—Agricultural law, § 304, 4th-9th sentences.

authorized so to do, without unnecessary delay, but the owner of the trees, shrubs, plants, vines or their products, boxes, containers or packing material shall be notified immediately upon its being determined that such trees, shrubs, plants, vines or their products, boxes, containers or packing material should be destroyed, by a notice in writing signed by said commissioner or the person or persons representing him, which said notice in writing shall be delivered in person to the owner of such trees, shrubs, plants, vines or their products, containers or packing material or left at the usual place of residence of such owner, or if such owner be not a resident of the town, by leaving such notice with the person in charge of the premises, trees, shrubs, plants, vines or their products, boxes, containers or packing material or in whose possession they may be. Such notice shall contain a brief statement of the facts found to exist whereby it is deemed necessary or proper to destroy such trees, shrubs, plants, vines or their products, boxes, containers or packing materials and shall call attention to the law under which it is proposed to destroy them, and the owner shall within ten days from the date upon which such notice shall have been received, or such shorter time as the commissioner may designate, remove and burn all such diseased or infested trees, shrubs, plants, vines or their products, boxes, containers or packing material. If, however, in the judgment of the commissioner, any trees, shrubs, plants, vines or their products, boxes, containers or packing material infected with any such disease or infested with dangerously injurious insects or fungous growth can be successfully treated with remedies, he may direct such treatment to be carried out by the owner under the direction of the commissioner's agent or agents. In case of objections to the findings of the inspector or agent of the commissioner, an appeal shall be made to the commissioner, whose decision shall be final. An appeal must be taken within three days from the service of said notice and shall act as a stay of proceedings until it is heard and decided. When the commissioner or the person or persons appointed by him shall determine when any tree or trees, shrubs, plants, vines or their products, boxes, containers or packing material must be treated or destroyed forthwith, he may employ all necessary assistants for that purpose, and such person or persons, agent or agents, employee or employees, may enter upon any or all premises in any city or town necessary for the purposes of such treatment, removal or destruction.

§ 167. Appraisal and payment of value of property destroyed. The commissioner shall ascertain the value of all boxes or containers destroyed and all trees, shrubs, plants, vines or their products destroyed on the ground that there was reasonable cause to believe they were or might be infected, infested or diseased as provided herein by having an agent of the department appraise the same. If the owner thereof is not satisfied with the value as fixed in such appraisal, then two arbitrators shall be appointed, one by the owner and one by the commis-

sioner or his duly authorized representative, and the value fixed by such arbitrators shall be final when duly approved by the commissioner. But if such arbitrators fail to agree, then each arbitrator shall make a report to the commissioner setting forth the values as determined by him and the said commissioner shall thereafter fix a value upon the articles so appraised. If the owner is not satisfied with the value so fixed, he may take an appeal therefrom to the court of claims, which court is hereby authorized to pass upon the questions involved and determine the amount due the said owner. The commissioner shall thereafter make to the comptroller of the state of New York a detailed statement in which he shall set forth the boxes and containers thus destroyed and the trees, shrubs, and plants destroyed on the ground of reasonable cause to believe that they were or might have been infected, infested or diseased and the value thereof determined as provided herein. The comptroller shall thereafter draw his warrant on the treasurer for the amount certified by the commissioner as the value thereof and the treasurer shall pay to the owner or owners of the said boxes, containers, trees, shrubs, plants, vines or their products so destroyed the value thereof from any money in the treasury specifically appropriated therefor. The provisions of this section shall apply to all boxes, containers, trees, shrubs, plants, vines or their products hereafter or heretofore destroyed, except as to such boxes, containers, trees, shrubs, plants, vines or their products as were brought into the state illegally, and such as are known to be infected or infested with such disease, fungous growth or pest.

§ 168. **Action to be taken by the commissioner.** When the commissioner knows or has reason to believe that any such disease, fungous growth or insect pest exists, or that there is good reason to believe that it exists, or danger is justly apprehended of its introduction into any town or city in the state, or that any dangerously injurious insect pest or fungous growth exists within this state, and has reason to believe that danger may be justly apprehended from its existence, he shall forthwith send some competent person and such agent or agents as he may deem necessary to assist in extirpating said pest or pests, disease or diseases, and the said commissioner is hereby authorized and empowered to take such steps and do whatever may be deemed necessary to so control or prevent the spread or extirpate such pest or pests, disease or diseases. The said commissioner is hereby empowered to issue such orders and notices as he may deem necessary or proper for the purposes herein relative to such diseased nursery stock or relative to any trees, shrubs, plants, vines or their products, boxes, containers or packing material concerning which he has reasonable cause to believe are or may be infected or infested with any such disease or pest.

§ 169. **Examination of nurseries and nursery stock.** The commissioner shall cause an examination to be made at least once each year, prior to September first, of each and every nursery or other place where trees, shrubs, plants or vines,

commonly known as nursery stock, are grown for sale, for the purpose of ascertaining whether the trees, shrubs, plants or vines therein kept or propagated for sale are infected with any such contagious disease or diseases or infested with such pest or pests. If after such examination it is found that the said trees, shrubs, plants or vines so examined are free in all respects from any such contagious or infectious disease or diseases, dangerously injurious pest or pests, the said commissioner or his duly authorized agent or other person designated to make such examination shall thereupon issue to the owner or proprietor of the said stock thus examined a certificate setting forth the fact that the stock so examined is apparently free from any and all such disease or diseases, pest or pests. No nurseryman, agent, dealer or broker, shall distribute or deliver within the state, trees, vines, shrubs, plants, buds or cuttings, commonly known as nursery stock, and which are subject to the attacks of insects and diseases above provided for, unless he has in his possession a copy of said certificate, dated within a year thereof, nor deface or destroy such certificate, or wrongfully be in possession of such certificate.

§ 170. **Transportation of nursery stock.** All nursery stock consigned for shipment or shipped by freight, express or other means of transportation shall be accompanied by a copy of said certificate attached to each car, box, bale, bundle or package, but no nursery stock shall be sold or shipped under the certificate issued as provided herein that is not raised in the nursery for or to which the said certificate was issued until such stock has been duly examined as provided herein and found to be apparently free from any dangerously injurious insect pest or disease. All custom house brokers bringing into or causing to be brought into this state any nursery stock shall file with the commissioner on or before October first each year the name of the person, firm, association or corporation engaged in or intending to engage in such business, together with the business address of such person, firm, association or corporation. All transportation companies, custom house brokers or other persons importing or bringing nursery stock into this state shall immediately, upon receiving such consignment, notify the commissioner of the fact that such consignment is in their possession or is en route to some point within the state and give the name of the consignor and consignee, and the points of shipment and of destination of such consignment, and the name of the transportation company bringing such stock and the route or routes over which it was brought and shall make such further report relative to such shipments as the commissioner may from time to time require. Any person bringing trees or other plants into this state or receiving such trees or plants from outside the state shall before unpacking the same within the state apply to and receive from the commissioner a permit so to do; the commissioner shall, upon being satisfied that said trees or plants so desired to be inspected are free from any dangerously injurious insect pest, disease or fungous growth, issue a certificate permitting such person to unpack

such trees or plants. No person shall knowingly or wilfully bring into this state or unpack within the state gypsy or browntail moth or other insect pests or caterpillar, larvae, pupae or eggs of the same except for scientific purposes and then only upon the written consent and approval of the commissioner. All trees, plants, shrubs, buds or cuttings, commonly called nursery stock, grown in any nursery in this state, in which San Jose scale has been found within two years of the date of the dissemination of said nursery stock or grown in said nursery within one-half mile of where said scale was found, must be fumigated with hydrocyanic acid gas, in such manner as may be directed by the commissioner of this state. Such fumigation must be done by the grower of such stock before planting, dissemination or reshipment, except such trees, shrubs, plants, buds or cuttings grown in this state as are planted by the grower or propagator for himself, or such as from its nature or state of growth would be exempt; in such cases the said commissioner shall declare such trees, shrubs, plants, buds or cuttings free from such treatment. Should any nursery stock purchased within one year be found infested with San Jose scale on the premises of any nurseryman, it shall not be considered such an infestation as to require the fumigation of other stock not so purchased.

§ 171. **Caterpillars and black knot.** The tent caterpillar, the forest tent caterpillar and the fungous known as black knot are hereby declared to be public nuisances. When owners of property within this state shall report to the commissioner that an outbreak of the pests known as tent caterpillar, forest tent caterpillar or the fungus known as black knot exists, or when said commissioner has knowledge that either of these pests or this disease is damaging trees or plants he shall cause an investigation to be made. If it is found, as a result of such investigation, that there is reasonable ground to believe that such caterpillars or fungus disease will spread and do damage to trees, plants or other vegetation, the commissioner may order the owners to destroy such caterpillars and such diseased trees and the owners shall comply with such order under the direction or surveillance of the commissioner or his duly authorized representative and no damage shall be awarded or paid to any owner of trees or plants necessarily destroyed by virtue of the work performed in carrying out the provisions of such order.

The comptroller shall thereupon borrow such sum for such purpose, and shall report the transaction, on January first of the year following, to the legislature, with a recommendation that an appropriation be made to repay the sum or sums so borrowed. The provisions of section thirty-five of the state finance law shall not apply to any indebtedness incurred by the comptroller on behalf of the state pursuant to this section.

§ 174.³⁴ **Assessors to report owners of bees; transportation of bees regulated.** Assessors shall file with their annual assessment roll a list of the names and addresses of all owners of bees within their respective districts. No person shall remove or transport bees or colonies of bees that are suffering with the disease known as European or American foul brood from the place where kept to any point within the state of New York, provided, however, that this shall not prevent the removing of diseased colonies of bees from bees not so diseased to some point of segregation and safety. The removal of diseased bees from the colonies that are not so diseased to some other place for treatment shall only be done under a written permission from the commissioner to so remove for such purpose. No person or corporation shall remove bees which are under quarantine to another locality without obtaining permission in writing from the commissioner so to do. No person or transportation company shall receive any bees for transportation from a point within this state to any other point therein unless said bees are accompanied by a certificate signed by an authorized inspector of the department of farms and markets stating that such bees are in good healthy condition. In case contagious disease is found within the shipment, such shipment shall be returned to the consignor or delivered to a duly authorized representative of the department of farms and markets of this state for treatment or destruction.

§ 175. **Duties of the commissioner.** The commissioner shall immediately upon receiving notice of the existence of European or American foul brood among the bees in any locality, send some competent person or persons to examine the apiary or apiaries reported to him as being affected, and all the other apiaries in the immediate locality of the apiary or apiaries so reported. If European or American foul brood is found to exist in them, the person or persons so sent by the commissioner shall give the owners or caretakers of the diseased apiary or apiaries full instructions how to treat said cases. The commissioner shall cause said apiary or apiaries to be visited from time to time as he may deem best and if, after proper treatment, the said bees shall not be cured of the disease known as European or American foul brood then he may cause the same to be destroyed in such manner as may be necessary to prevent the spread of the said disease. For the purpose of enforcing this article, the commissioner, his agents, employees, appointees or counsel, shall have access, ingress and egress to all places where bees or honey or appliances used in apiaries may be, which it is believed are in any way affected with the said disease of European or American foul brood or where it is believed any commodity is offered or exposed for sale in violation of the provisions of this article. No owner or caretaker of a diseased apiary, honey or appliances shall sell, barter or give away any bees, honey or appliances from said diseased apiary, which shall expose other bees to the danger of said diseases, nor refuse to allow the said commissioner, or the person or persons appointed by him to inspect said apiary, honey or appliances, and do such things as the said commissioner or the person or persons appointed by him shall deem necessary for the eradication of said diseases.

law, § 91.

§ 231. **Temporary storage.** Except when such place is used for the storage of food for the sole use of the occupant, owner or maintainer thereof for consumption by himself or his family or guests, no person, firm or corporation shall maintain or operate within this state any temporary storage place in which food is stored at a temperature below twenty degrees above zero Fahren-

heit without a permit to be issued by the commissioner. When such permit has been issued goods may be stored in such temporary storage place for periods not to exceed thirty days and must be marked with the day, month and year in which they were received for storage in such temporary storage place. Provided, further, that it shall be unlawful for any person, firm or corporation to keep or store any food for any period longer than thirty days in any temporary storage place maintained at any temperature either above or below twenty degrees Fahrenheit.

§ 232. **License to be secured.** No person, firm or corporation shall maintain or operate within this state any cold storage warehouse, except when such warehouse is used exclusively for the storage of nuts, fruits, cheese, ice cream or vegetables, without a license to be issued, as prescribed in this article, by the state department of farms and markets. Any person, firm or corporation desiring such a license shall, before beginning to maintain or operate a cold storage warehouse, make a written application for such license to the commissioner on or before the first day of September, and annually thereafter, stating the location of its plant or plants and such other facts as the commissioner shall prescribe. Any applicant desiring to begin the operation of a cold storage warehouse after the first day of October of any year shall, before beginning such operation, file a like application for a license therefor. On receipt of the application the commissioner shall cause an examination to be made into the sanitary condition of such plant or plants, and if found to be in a sanitary condition and otherwise properly equipped to be operated and maintained for cold storage warehouse purposes the commissioner shall, upon payment of a license fee of twenty-five dollars, cause a license to be issued authorizing the applicant to operate a cold storage warehouse until the first day of October next following. An additional license fee of five dollars shall be paid by each applicant for the licensing of each separately operated cold storage plant in excess of one; and a separate license shall be issued for each such additional plant. In the event that any warehouse licensed under the provisions of this section, or any portion thereof, shall be deemed by the commissioner to be conducted in an insanitary manner, it shall be the duty of the commissioner to close such warehouse, or portion thereof, until it shall be put in satisfactory condition, and the commissioner shall have the power also to suspend the license in case the changes required shall not be made within a reasonable time.

In case of transfer of ownership of foods while still held in cold storage the seller of the same shall notify the buyer in writing of the day, month and year in which said food was originally placed in storage.

§ 237. **Food to be condemned.** No article of food shall be placed, received or kept in any cold storage warehouse or temporary storage place unless the same is in an apparently pure and wholesome condition. The commissioner may seize and condemn any articles of food in any cold storage warehouse or temporary storage place which are found to be unfit for human consumption, and such articles of food shall be destroyed or otherwise disposed of so as to prevent their being used for food, under such conditions as he shall prescribe.

In case any article which has been in cold storage in another state shall be placed in storage in any cold storage warehouse in this state, the mark, brand, stamp or tag thereon, if any, shall be presumptive evidence of such storage and of the period of such storage. Any person, firm or corporation to whom a license to operate a cold storage warehouse has been granted under the provisions of this article who shall receive or hold in such warehouse any food owned by another person, firm or corporation, shall send to such owner a written notification to remove such food at least two weeks prior to the expiration of the time limit of twelve calendar months, and it shall be a sufficient defense to an action, civil or criminal, against such a licensee for keeping or permitting to remain in any cold storage warehouse any article of food belonging to another person after the expiration of such time limit that such notice was duly given.

When such articles of food are placed in cold storage awaiting shipment to any foreign country they shall be further marked with the words "for export" and with a lot number which shall serve to identify the same in the books and records kept by the licensee. On the fifth day of each month every licensee shall submit a report to the state department of farms and markets, setting forth in itemized particulars the date received, the lot number and the quantity and kind of foodstuff in such lot, of all articles of food being held in cold storage awaiting shipment to any foreign country as the same existed on the last day of the preceding month. Every person, firm, exchange, association and corporation in this state receiving farm produce for sale on commission shall, annually on or before June first, file an application with the commissioner for a license to do a commission business in farm produce. § 246. **Bond and distribution of moneys recovered thereon.** Before any such license shall be issued every applicant shall execute and deliver to the commissioner a fidelity bond with satisfactory sureties in the sum of three thousand dollars to secure the honest accounting to the consignor of the moneys received or due and owing by such commission merchant from the sale of the farm produce sold on commission, and the commissioner may bring an action in any court of competent jurisdiction in the county in which is situated the place of business of the licensee, against the principal and sureties for the recovery of any such moneys.

The commissioner shall within thirty days after final recovery of the moneys upon said bond, proceed to distribute said moneys so recovered among the consignor creditors entitled thereto unless prevented from so doing by a court order, and if a court order is made preventing such distribution then he shall make such distribution as herein provided within thirty days after the vacating of said court order. When a consignor of farm produce fails to obtain satisfactory settlement in any transaction, after having notified the consignee, a verified complaint may be filed, at the expiration of ten days after such notification, with the commissioner. The commissioner shall attempt to secure an explanation or adjustment, failing in which, he shall cause a copy of the complaint, together with a notice of a time and place for a hearing thereon, to be served personally, or by mail, upon such commission merchant. Such service shall

be made at least seven days before the hearing, which shall be held in the city, village or township in which is situated the place of business of the licensee. At the time and place appointed for such hearing, the commissioner or an assistant commissioner shall hear the parties to such complaint, and shall make and file in the office of the commissioner a decision either dismissing such complaint or specifying the facts which he deems established on such hearing.

In case of failure by a commission merchant to pay consignor creditors for farm produce received from said consignors to be sold on commission, or in case of the bankruptcy of, or the revocation of the license of, such commission merchant, or the discontinuance of the business of such commission merchant for any other reason, the commissioner shall proceed to ascertain the names and addresses of all consignor creditors of such commission merchant, together with the amounts due and owing to them by such commission merchant, by advertising in at least two commercial or produce papers within the state, at least once each week for a period of eight weeks, notifying in such advertisement all such consignor creditors to file a verified statement of their claims with the commissioner within thirty days of the expiration of the period of notice, and that claims not filed during that time will not receive consideration. At the end of thirty days from the termination of such period, the commissioner shall proceed to bring an action on the bond which has been filed in the department by said commission merchant.

ARTICLE 21.

Licensing of Milk Gathering Stations.

Section 252. Licensing of milk gathering stations where milk is bought.

253. Power of commissioner to investigate.

254. Granting and revoking licenses.

255. Certiorari to review.

256. Records to be kept.

257. Right to review.

258. Offenses.

§ 252. **Licensing of milk gathering stations where milk is bought.** No person, firm, association or corporation, shall buy milk or cream within the state from producers for the purpose of shipping the same to any city for consumption or for manufacture unless such business be regularly transacted at an office or station within the state and unless such person, firm, association or corporation be duly licensed as provided in this and the ensuing sections of this article. Every such person, firm, association or corporation before engaging or continuing in the business of buying milk or cream for the purposes aforesaid, shall, annually, on or before August first, file an application with the commissioner for a license to transact such business. The application shall state the nature of the business, as hereinabove set forth, the full name of the person or corporation applying for the license, and, if the applicant be a firm or association, the full name of each member of such firm, or association, the city, town or village and street number at which the business is to be conducted, and such other facts as the commissioner shall prescribe. The applicant shall further satisfy the commissioner of his or its character, financial responsibility and good faith in seeking to carry on such business. The commissioner shall thereupon issue to such applicant, on payment of ten dollars, a license entitling the applicant to conduct the business of buying milk and cream from producers for the purpose aforesaid at an office or station at the place named in the application until the first day of September next following; provided, however, that if the application be presented in the month of July, and if the applicant so elects, such license may be granted to begin on the first day of September next following and run for a term of one year. A license shall not be issued, however, to any applicant if during the year preceeding the filing of the application a complaint from any producer and seller of milk or cream shall have been filed with the commissioner against such applicant for any of the grounds specified in section two hundred and fifty-four hereof, and such complaint shall have been established as true and just to the satisfaction of the commissioner after such complaint shall have been investigated by the commissioner in the manner provided by this article. A license shall not be issued as provided in this section, unless the applicant for such license shall file with the application a good and sufficient surety bond, executed by a surety company, duly authorized to transact business in this state, in a sum not less than five thousand dollars, or shall be relieved from such requirement as provided herein. Such bond shall be approved as to its form and sufficiency by the commissioner.

Agricultural law,
§ 55.

Such applicant may in lieu of such bond deposit with the commissioner money or securities in which the trustees of a savings bank may invest the moneys deposited therein, as provided in the banking law, in an amount equal to the sum secured by the bond required to be filed as herein provided.

The bond required to be filed hereunder shall be given to the commissioner in his official capacity and shall be conditioned for the faithful compliance by the licensee with the provisions of this chapter, as hereby amended, and for the payment of all amounts due to persons who have sold milk or cream to such licensee, during the period that the license is in force. The money or securities deposited with the commissioner, as above provided, shall constitute a separate fund and shall be held in trust for, and applied exclusively to, the payment of claims against the licensee making such deposit, arising from the sale of milk or cream to such licensee.

Upon default by the licensee in the payment of any money due for the purchase of milk or cream, which payment is secured by a bond or the deposit of money or securities as hereinbefore provided for, the creditor may file with the commissioner, upon a form prescribed by him, a verified statement of his claim. If such creditor shall have reduced such claim to judgment or shall thereafter and before the commencement of the action by the commissioner, as hereinafter provided for, reduce such claim to judgment, a transcript of such judgment shall also be filed with such commissioner.

Such statements may be filed at any time during the period of the license for purchases made during such period and within ninety days from the termination of such period.

After the expiration of ninety days from the termination of any license period the commissioner shall, by proper action wherein all such creditors and any surety upon any bond given as hereinbefore provided for and the licensee shall be parties, proceed to determine the amount due each such creditor, and the judgment rendered in such action shall be enforced ratably for such creditors against the surety on the bond, if one there be, or against the moneys or securities deposited as hereinbefore provided for. If any such creditor shall have reduced his claim to judgment such judgment shall be presumptive proof of the amount due such creditor in any action brought by the commissioner as hereinbefore provided for.

Every bond given pursuant to the provisions hereof shall be applicable, in the first instance, to the payment of all claims arising during the license period for which such bond shall continue, and filed either during such period or within ninety days after the expiration thereof. If all such claims shall be paid the balance available upon such bond shall be devoted to the extinguishment ratably of claims arising during such license period, but for which statements shall not have been filed until after ninety days after the expiration of such period.

All moneys and securities, deposited as herein provided for, shall be applicable, in the first instance, to the extinguishment of claims, properly filed, arising during the license period for which such moneys or securities were originally deposited and if, after the extinguishment of such claims, there shall be a surplus remaining such surplus shall be devoted to extinguishment of

claims arising during any preceding license period which were properly filed as hereinbefore provided, all claims for any one license period to be a party. Any surplus remaining after the extinguishment of such prior claims shall be added to the moneys or securities then on deposit with the commissioner or, if there be at that time on file with such commissioner a bond given pursuant to this section, or if there be then on deposit with such commissioner additional moneys or securities deposited as herein provided for, and if such bond or such moneys or securities, as the case may be, shall, in the opinion of the commissioner, be sufficient, such surplus shall be returned to the licensee.

A person or corporation licensed hereunder shall make a verified statement of his or its disbursements during a period to be prescribed by the commissioner, containing the names of the persons from whom such products were purchased, and the amount due to the vendors thereof. Such statement shall be submitted to the commissioner when requested by him and shall be in the form prescribed by such commissioner. If it appears from such statement or other facts ascertained by the commissioner, upon inspection or investigation of the books and papers of such licensee as authorized by this article, that the security afforded to persons selling milk and cream to such licensee by the bond executed or deposit made by such licensee as herein provided does not adequately protect such vendors, the commissioner may require such licensee to give an additional bond or to deposit additional money or securities, to be executed or deposited as above provided, in a sum to be determined by the commissioner, but not exceeding by more than twenty-five per centum the maximum amount paid out by such licensee to sellers of milk in any one month: Provided, however, that the maximum amount of the bond or deposit required from any applicant under the provisions of this section shall be one hundred thousand dollars; and that any applicant filing a bond or depositing money or securities in such maximum amount shall be exempted from filing either the statements of milk purchased, or the statements of disbursements in this section provided for.

If the applicant for a license under this section be a person or a domestic corporation, the commissioner may, notwithstanding the provisions of this section, if satisfied from an investigation of the financial condition of such person or domestic corporation that such person or corporation is solvent and possessed of sufficient assets to reasonably assure compensation to probable creditors, by an order filed in the department, relieve such person or corporation from the provisions of this section requiring the filing of a bond.

The term "station" or "milk gathering station," as used in this and the ensuing sections of this article, shall include an established office where the business of buying milk or cream as herein provided is carried on, with or without a place or premises in connection therewith for the physical handling of milk or cream.

(2) The commissioner of public markets of such city shall submit such proposal by petition, in the form and manner prescribed by the commissioner of farms and markets. Such petition shall (a) give the location and describe in detail the lands owned by the city and dedicated or assigned for use as public markets, or lands to be acquired for such use, as provided by the last preceding section, upon which it is proposed to construct new public markets or to repair or improve existing public markets in such city; (b) describe the character of the proposed construction, repair or improvement; (c) state the estimated value of the lands dedicated or assigned, or to be acquired for use as public markets, and the estimated cost of the proposed construction, repair or improvement; (d) specify generally the public necessity for the acquisition of the lands described for public market purposes and for the construction of new public markets on such lands, and for the construction, repair or improvement of public markets on lands already owned by the city and dedicated or assigned for use as public markets, and (e) set forth such other matters as may be required by the commissioner of farms and markets. The commissioner of public markets of such city shall submit with such petition detailed plans and specifications for the construction of the proposed new public market or markets, or for the repair or improvement of one or more existing public markets in such city.

provement of public markets in such city. The commissioner shall visit and inspect the locations of the lands proposed to be acquired or already acquired and dedicated or assigned for use as public markets, and shall determine as to the suitability of such lands for public market purposes and as to the propriety of constructing, repairing or improving public markets thereon. The commissioner shall also examine the plans and specifications for the proposed construction, repair or improvement of such public markets, and determine whether such public markets should be constructed, repaired or improved in accordance with such plans and specifications. The commissioner may recommend such modifications or alterations of such plans and specifications as he may deem advisable and return the same to the commissioner of public markets of such city.

(4) If the commissioner approve the location of the proposed new public markets and the plans and specifications of the public markets to be erected thereon, or in the case of existing public markets, if the commissioner approve of the proposed repair or improvement and of the plans and specifications therefor, he shall issue a certificate of such fact to the commissioner of public markets of such city and shall state therein the maximum amount which in his opinion should be expended for the acquisition of the lands for the proposed new public markets and for the construction of public markets thereon, or in case of the repair or improvement of existing public markets, the maximum amount which should be expended for such repair or improvement.

(5) If it is proposed to erect new public markets on lands owned by the city and dedicated or assigned for use as public markets, or to repair or improve existing public markets, the commissioner shall appraise the value of such lands or of such existing public markets and shall issue a certificate of the value as so appraised to the commissioner of public markets of such city.

(6) If the lands described in such petition, the location of which shall have been approved by the commissioner, are acquired by the city as provided in this article and dedicated or assigned for use as public markets, and new public markets are constructed upon such lands in accordance with plans and specifications which have been approved by the commissioner, or if new public markets are constructed upon lands already owned by the city and dedicated or assigned for use as public markets, in accordance with plans and specifications so approved by the commissioner, or if existing public markets are repaired or improved in accordance with plans and specifications so approved by the commissioner, one-half of the maximum amount certified by the commissioner as above provided, shall be paid by the state out of moneys appropriated or made available therefor as provided by law. The remainder of the cost of the acquisition of such lands and of the construction, repair or improvement of public markets thereon, shall be paid by the city.

(7) If the commissioner of farms and markets shall approve of the proposed locations of lands dedicated or assigned, or to be dedicated or assigned, for public markets in such city, and shall have approved as herein provided of the plans and specifications for the construction, repair or improvement of such public markets, all conveyances or transfers of such lands to the city shall be approved as to their form and sufficiency by the commissioner of farms and markets, and all contracts for the construction, repair or improvement of public markets in accordance with the plans and specifications approved by the commissioner as herein provided, shall before they become effectual be submitted to and approved by such commissioner. (8) The portion of the expenditures for the acquisition of lands for public markets and for the construction, repair and improvement of public markets, which is to be paid by the state shall be paid to the city by the state treasurer out of moneys appropriated or available therefor, upon the certificate of the commissioner of farms and markets on the warrant of the comptroller. The moneys so paid shall be applied by the city exclusively for the payment of the cost of the acquisition of the lands acquired by the city and dedicated for public markets, and for the construction, repair and improvement of public markets thereon in accordance with the provisions of this section.

(9) Upon the acquisition of lands by the city and the dedication or assignment thereof for use as public markets, and the completion of the construction of new public markets thereon or of the repair and improvement of existing public markets as provided herein, such public markets shall be under the supervision and control of the department of public markets of the city, subject to the provisions of this article. The commissioner of public markets shall submit to the commissioner of farms and markets a report at least once in each period of three months, or oftener if required by the commissioner, containing a statement of the fees and other receipts collected for the use of the public markets, for the construction, repair or improvement of which the state has contributed as provided herein. The commissioner shall prescribe the form of such reports and may inspect through officers, employees or agents of the department of farms and markets the books and accounts of the commissioner of markets of such city, for the purpose of determining the amount received for the use of such public markets. The commissioner of public markets in such city shall pay to the department of farms and markets such proportion of the net receipts collected for the use of such public markets, including services, licenses and privileges and of renting space therein, as the payments by the state under the provisions of this section, for the acquisition of lands for public markets and the construction, repair or improvement of public markets, bear to the total amount expended for the acquisition of such lands and the construction, repair or improvement of

public markets, including the appraised value of lands owned by the city and of existing public markets so repaired or improved. The net receipts shall be ascertained by deducting from the gross receipts the expenses of operating such markets according to rules of the department of farms and markets. The amount so paid to the department shall be turned into the state treasury to the credit of the general fund.

(10) It shall be the duty of the commissioner of farms and markets to prepare and submit to the legislature a plan of apportionment of all moneys to be appropriated by the state to the several cities so that expenditures under this article shall be available to such cities on an equitable basis.

(11) The governing board of a town or village of ten thousand inhabitants or over may establish a department of markets for such municipality, with the powers, duties and jurisdiction of a department of markets in a city, as prescribed in this article, and may appoint a commissioner of public markets to be head of such department, and fix his compensation, or may provide for the supervision of the department by such governing board or by a designated official or officials of the town or village. When a department of markets shall have been so established in such a town or village the provisions of this section shall apply to such municipality in the same manner and to the same effect that they apply to cities; and references in this section to a city and to the commissioner of public markets thereof shall be deemed to include, respectively, a town or village in which a department of markets shall have been established and the commissioner of public markets thereof, the governing board of the town or village or the designated official or officials in charge of such department, as the case may be.

Award shall be made to the highest bidder. At any sale of bonds either by auction or under sealed proposals, the mayor, corporation counsel and treasurer, or a majority of them, may reject all bids and readvertise if in their opinion the price offered is inadequate. All said bonds or other obligations shall be issued in the name of and under the seal of the city, upon such terms of credit and at such rate of interest as the common council may determine; and all such bonds shall be signed by the mayor and city clerk, and shall be delivered to and countersigned by the treasurer, who shall receive and deposit the proceeds therefrom to the credit of the proper fund, to be used only for the purpose for which said money was borrowed. A record of said bonds shall be kept as provided by general law and no bond or other obligation shall be disposed of at less than its par value. All such bonds or other obligations and the interest thereon¹⁰ shall be a valid liability against the city and the credit of the city is pledged for the payment of the same. ¹¹All such bonds shall be in serial form maturing in substantially equal amounts annually in each year subsequent to the date of issue; and may be registered or coupon and shall be payable at the office of the city treasurer or at such bank, banking house or trust company as the common council may direct; and no such bonds which are payable in instalments shall be refunded, but provision shall be made for the payment of each instalment and accrued interest in the year in which it shall become due by the insertion of the proper sum in the annual estimate for the year in question, and which shall be raised by tax in addition to the moneys otherwise authorized to be raised by law, with the exception of bonds issued for water purposes. Any and all bonds issued for water purposes, including such bonds reissued or refunded, shall be redeemed and the interest thereon paid out of and from the amount received from the collection of water rents, bills for the use of water and other income derived from the water works system with the exception of the amount determined necessary to redeem any maturing water bonds for the payment of which no sufficient sinking fund has been provided and in such event the provisions of sections one hundred and seven and one hun-

Any and all bonds hereafter issued for water purposes, including bonds reissued or refunded, shall be in serial form and both principal and interest payable as hereinbefore indicated for other city bonds, but out of and from the funds derived from the water rents, bills for the use of water and other income derived from the water works system, but if, for any reason, the amount received from the water rents, bills for the use of water and other income derived from the water works system be insufficient to pay the interest on all such bonds and the principal of such bonds as mature during the fiscal year, then it shall be the duty of the common council to include the amount of such deficiency in its annual estimate of city expenses, and to assess, levy and collect the same from the taxable property of said city of Amsterdam in the same manner as other city expenses are assessed, levied and collected and in addition thereto. In the event it is necessary to issue bonds to provide for the supply of water and the same are in excess of the limitation of indebtedness fixed by the constitution of the state of New York,¹² the term of said bonds shall not exceed twenty years and a sinking fund shall be created on the issuing of said bonds for their redemption by raising annually a sum which will produce an amount equal to the sum of the principal and interest of said bonds at their maturity, and the same shall be issued in compliance with the requirements of the said constitution and shall in no manner contravene the same. Any and all existing sinking funds shall be continued in the manner now provided by law and any bonds of the city or any board thereof heretofore issued and not payable in annual instalments may be refunded. Accepted by the City.

Became a law March 7, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section fifty-seven of title five of chapter two hundred and forty-two of the laws of nineteen hundred and eleven, entitled "An act to amend, consolidate and revise the several acts relative to the city of Amsterdam," as amended by chapter three hundred and ten of the laws of nineteen hundred and seventeen, is hereby amended to read as follows: L. 1911,
ch. 442,
§ 57, as
amended by
L. 1917,
ch. 310,
amended.

§ 57. **Paving.** No street shall be paved by said city unless the owners owning a majority of the amount of lineal feet fronting on the part of the street proposed to be paved petition therefor; except that if the common council shall by resolution and vote of three-fourths of the aldermen in office decide that such paving be expedient and necessary, then such paving can be done without such petition. If the common council shall decide without a petition as above provided, that any street or section of a street ought to be paved, the city clerk shall cause to be published for at least six days,¹ a notice in the² official newspapers of the city, that at a time and place to be therein specified, the common council will meet to make a final determination in respect thereto. Such notice shall contain a brief description of the character, location and extent of the paving and of the material to be used therefor. Any person interested shall be entitled to be heard at such meeting in opposition to or in favor of such paving. If at the time of or before such meeting a protest against the paving, in writing, signed by the owners of two-thirds of the frontage upon such street or section of street proposed to be paved, and acknowledged as deeds of real estate are required to be acknowledged, be filed with the city clerk, the said common council shall not order the proposed paving, nor shall it consider the same again within one year; but the owners owning a majority of the amount of lineal feet fronting on a smaller section of the same street not less than one block, may file with the city clerk a petition therefor, and in that case the said common council may order the paving as therein requested. Fifty per centum of the expenses of paving made or directed under this section, shall be paid by a general tax upon the city, exclusive of curbing, and the amount charged to any street surface railroad corporation, and such part or portion of such expenses shall thereupon become a charge upon the city and shall be added to and raised

with the next general assessment and tax for city purposes; and the balance of said expense, exclusive of the part to be done or paid for by any street surface railroad corporation under the terms of the general laws of this state, shall be defrayed by local assessment upon such portions of the real estate in said city and against the owners thereof, as the assessors of said city shall deem more immediately benefited by such paving. No part of the expense of paving a street, except the general tax hereinbefore mentioned, shall be assessed upon any lands not bordering on or touching the part or parts of such street upon which such improvements are made. The common council shall not in any one year, order or contract for paving, the total cost or expense of which shall be in excess of the sum of sixty thousand dollars.¹ Nothing herein contained shall relieve any street surface railroad corporation from the obligation of paving such portion of the street as is imposed on it by law; and the cost of paving the said portion shall not be considered a portion of the total cost of paving, in determining the amount of paving that may be ordered or contracted for in any one year, nor shall the cost of curbing be therein included. The said common council is hereby authorized to borrow upon the credit of the city such sums and for such period of time, not exceeding four years for any portion thereof, as shall be necessary to pay the entire cost and expense of such paving, in anticipation of the collection of the taxes therefor, and pay and discharge the entire indebtedness thereof. The city's portion of the money so borrowed shall be repaid, when collected, from the general tax. The balance of said indebtedness so borrowed shall be repaid, when collected, from the assessment for such paving. Any person, firm or corporation owning property abutting or touching on any street, or section thereof, directed to be paved according to any of the provisions of this act, and against whom or whose property the assessors shall make an assessment and who shall become and be liable for the payment of such assessment, as herein provided, may, at any time before the expiration of the last day when the tax or assessment for such paving may be paid without fees to the city treasurer, as provided in section one hundred and four of this act, file a statement in writing with the city treasurer, that he, she, they, or it elects to pay such tax or assessment in not to exceed three equal instalments with interest thereon at six per centum per annum, interest to be computed on such instalments from the expiration of the last day when the same might have been paid without fees had such election not been made. At the time of filing such statement the person, firm or corporation filing the same must pay the first instalment of said tax or assessment; otherwise such statement and election shall be void and of no effect. The balance of such instalments shall be due and payable in one and two years respectively. At the time when such tax or assessment is due where no election is made as above provided, and when any of

the respective unpaid instalments with the interest thereon shall become due and payable where such election is made, said common council shall issue the proper warrant for the collection of said tax or assessment or unpaid instalment, with interest, so due and payable, attach the same to said assessment roll, and deliver the said warrant so attached to the treasurer of said city, and thereupon the same proceeding shall be had and taken for the collection of said tax or assessment or unpaid instalment as provided by section one-hundred and four of this act for the collection of a local assessment and as prescribed by sections eighty-six to ninety-four, inclusive, of the act for the collection of unpaid taxes. The term paving as used in this act shall include repaving, and is also intended to cover curbs along the line of such paving or repaving. The common council shall have the power to cause such curbs to be made, or remade, set or reset, in such manner and of such material as it may direct; such making or remaking, setting or resetting of such curbs, shall be included in and become a part of the proceedings and improvements of the paving or repaving of such street, made pursuant to this section, but the whole expense of such curbing or recurbing shall be assessed upon the real property and against the owners thereof abutting upon such improvement in proportion to the frontage thereon; and in making the assessments as in this section provided, all the improvements made as aforesaid, shall be included therein, and the cost and expense of such curbs shall be collected with and as a part of the assessment for the paving of such street.

§ 2. This act shall take effect immediately.

Became a law March 10, 1922, with the approval of the Governor. Passed, three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

L. 1909,
ch. 63,
§ 382, as
added by
L. 1919,
ch. 827,
and
amended by
L. 1921,
ch. 477,
amended.

Section 1. Section three hundred and eighty-two of chapter sixty-two of the laws of nineteen hundred and nine, entitled "An act in relation to taxation, constituting chapter sixty of the consolidated laws," as added by chapter six hundred and twenty-seven of the laws of nineteen hundred and nineteen, and last amended by chapter four hundred and seventy-seven of the laws of nineteen hundred and twenty-one,¹ is hereby amended to read as follows:

§ 382. **Distribution of the income tax.** All revenue collected or received by the commission under this article shall be deposited daily with such responsible banks, banking houses or trust companies as may be designated by the comptroller, and to the credit of the comptroller of the state of New York. Such deposits shall be kept separate and apart from all other moneys in the possession of the comptroller. The comptroller shall require adequate security from all such depositories. Of the revenue collected under this article the comptroller shall retain in his hands sufficient to provide at all times a fund in his hands in the sum of two hundred and fifty thousand dollars out of which he shall pay any refunds to which taxpayers shall be entitled under the provisions of this article. Of the remainder, fifty per centum shall be paid into the state treasury to the credit of the general fund. The remaining fifty per centum thereof shall, not later than the first day of July, and in case of moneys subsequently collected at least quarterly thereafter, be distributed and paid to the treasurers of the several counties of the state, in the proportion that the assessed valuation of the real property of each county bears to the aggregate assessed valuation of the real property of the state. The tax commission shall in due time for the distribution thereof certify to the comptroller the apportionment to the various counties the share of taxes received under this article to which they are entitled and upon verification and approval of such apportionment by him the comptroller shall distribute such share of the tax moneys in accordance with the provisions of this article. As to any county included in the city of New York such payment shall be made to the receiver of taxes in such city and be paid into the general fund for the reduction of taxation of the city of New York. The county treasurer shall apportion the amount so received among the several towns and cities within the county, except a city contain-

ing a part of a town, in proportion that the assessed valuation of the real property of each town or city bears to the aggregate assessed valuation of the real property of the county. The county treasurer shall pay the amount so apportioned to each city to the chief fiscal officer of the city to be paid into the general fund for city purposes; and in a county having a population of over three hundred thousand according to the last federal or state census and adjoining a city of the first class having a population of one million and upwards, the county treasurer shall pay the amount so apportioned to the supervisor of the town and such amount shall be by him credited to general town purposes, and such amounts shall not be apportioned or distributed as hereinafter provided. If a town does not contain any part of a city or village, the county treasurer shall pay the amount so apportioned to the town to the supervisor of the town. If one or more incorporated villages or cities be wholly or partly within a town, the county treasurer shall divide the amount apportioned to such town between such town and such village, villages or city in the proportions that the assessed valuations of the real property of such town, as appears by the last preceding town assessment-roll, and of the real property of such village, villages or city, or the portion thereof wholly within such town, as appears by the last preceding village or city assessment-roll, bear respectively to the aggregate assessed valuation of the real property of such town and of such village, villages or city, determined by adding together the assessed valuation of the real property of the town, as appears by the last preceding town assessment-roll and the assessed valuation of the real property of such village, villages or city, or the portion thereof wholly within such town, as appears by the last preceding village or city assessment-roll, as the case may be. If two or more villages be entitled to share in such division, the county treasurer shall divide between them the amount to which they are entitled in the proportions that the assessed valuation of the real property of such villages located in the town, as appears by the last preceding village assessment-rolls bears to the aggregate assessed valuations of the real property of such villages located in such town, as so determined. The county treasurer shall pay over to the chief fiscal officer or officers of such village or villages or such city the amount to which such village, villages or city is entitled in accordance with the above apportionment, and shall pay the remaining portion thereof to the supervisor of the town. Except as hereinafter provided, upon¹ the distribution of such revenues to any town the supervisor shall, with the approval of the town board,² distribute not to exceed one-third of such allotment to such town among the several school districts in the town in the proportions that the assessed valuation of the real property of each of such school districts, respectively, or part thereof in

such town as the same appears upon the last preceding town assessment-roll bears to the aggregate assessed valuation of the real property of the entire town, but the amount so distributed to any school district for any one year shall not exceed one-fourth of the amount raised by taxation in such school district for school purposes during the preceding year, and the excess, if any, not so distributed to any such district shall be retained by the supervisor and credited, together with the remaining two-thirds of such total allotment, to general town purposes. 'However, the town board, by resolution, may direct the supervisor to retain all such moneys allotted to the town, in which case such one-third shall not be so distributed to the school districts, but all moneys so allotted to the towns shall be credited to general town purposes.

§ 2. This act shall take effect immediately.

Such plan shall contain provisions, which in the judgment of the commission, will accomplish as nearly as may be the following four main purposes: (1) the combination, rehabilitation, improvement and extension of existing railroads so that service thereon may be increased and improved to the fullest extent possible, (2) the receipt as soon as practicable by the city of sufficient returns from the operation of the railroads so that the corporate stock or bonds issued by the city for the construction of rapid transit railroads may be exempted in computing the debt incurring power of the city under the constitution of the state, and (3) the assuring to the people of the city the continued operation of the railroads at the present or lowest possible fares consistent with the just valuations of the railroads and their safe and economical operation. The commission shall also endeavor to include in the plan of readjustment appropriate provision for the protection of tort creditors. Without limiting the authority and discretion of the commission, it shall consider the incorporation in the plan of provisions whereby the title to

such railroads as are not already owned by the city and whose ownership thereby is deemed by the commission to be desirable may be vested in the city in return for a lease of such railroads by the city, and in the event of the incorporation of such provision in the plan the commission shall outline an arrangement whereby outstanding securities of the railroad companies may be exchanged for new securities and the valuation of the railroads, determined as hereinafter provided, amortized. The commission may provide in any contract or in any modification of an existing contract that the payment of interest and dividends may be deferred for a period to be fixed by the commission, and not to exceed two years from the delivery of such contract or such modification, in order to provide funds for the prompt reorganization and rehabilitation of the railroads.

In connection with the preparation of such plan the commission shall cause a valuation to be made of the property, other than franchises or going value, necessarily used in public service of the railroads it proposes to include therein. Such valuation shall be made with due regard to the estimated prospective earning capacity of the property necessarily used in the public service at the rate or rates of fare that the company prior to the taking effect of this act was entitled to charge in view of the provisions of the contract or franchise under which the property is operated or held or of any lawful order in force fixing or regulating rates of fare and of the competition of other lines and with due regard to all other pertinent facts and conditions; but such valuation shall not in any case exceed the fair reconstruction cost of the property less depreciation. Such valuation shall be in such detail and shall include the elements of cost or values and shall be made in such manner as the commission may prescribe. Such valuation as finally determined by the commission and incorporated in the contracts⁹ shall be the basis for all allowances to the railroad companies under the plan and for thereafter fixing the returns under the plan and the contracts entered into thereunder¹⁰ on the property so valued, anything in this chapter to the contrary notwithstanding.

In connection with the preparation of the plan of readjustment the commission shall investigate and give consideration to the possibility of including in the plan provision for railroads operating between a point or points within the city and a point or points without the city and for connecting railroads whose lines stop at or near the city line.

In the preparation of the plan of readjustment the commission shall consider the incorporation in the contracts to be entered into to carry such plan into effect of provision for a board of control to have supervision and control over the management and operation of the railroads included in the plan and in such contracts and for proper representation thereon of the city and of

the railroad companies and of any other interest which the commission decides should also be represented thereon.

¹¹ When organized by the commission, such board of control shall be a body politic and corporate, to be known and designated as the board of transit control, with authority to issue bonds and other evidences of indebtedness; to hold the stock and securities of subsidiary operating and other corporations; to exercise supervision and control over the management and operation of the railroads included in the plan as therein provided; to adopt and from time to time amend by-laws, and to have all the powers necessary or incidental to the effective performance of the duties imposed upon it by the plan of readjustment and the contracts entered into thereunder. Such organization of the board of transit control shall be evidenced by the commission filing in the office of the secretary of state a certified copy of such by-laws, together with a certified copy of the minutes of the proceedings of the transit commission in respect of such organization. In order to aid and facilitate the plan of readjustment the members of the commission may, in addition to their other duties, serve as members of the board of transit control for a period not to exceed the first year of operation under the plan of readjustment.

If under the plan of readjustment the title to the railroads is to be vested in the city under contract provision to the effect, in substance, that title shall first pass, subject to specified liens, to an intervening corporation to be organized by the commission for such purpose, in exchange for bonds of such intervening corporation, and that the title to the railroads to be transferred by such intervening corporation to the city in return for a lease or leases to such intervening corporation or to other corporations organized by the commission* for operating the railroad, the board of transit control shall constitute and be such intervening corporation, with full power and authority to perform and carry out the provisions of the contract or contracts or modification of contracts executed under the plan of readjustment.

The board of transit control shall cause to be organized and incorporated such subsidiary operating companies as may be deemed by the commission to be necessary for the purpose of operating the whole or any part of the system provided for under the plan of readjustment. Any such subsidiary operating companies created solely for the purpose of carrying out the plan of readjustment shall be organized by filing in the office of the secretary of state an appropriate certificate of incorporation, prepared and executed by the members of the board of transit control, in which certificate shall be set forth the name of the company, the number of shares of its stock, the amount of its capital, which may be nominal, the names and addresses of the directors and a general description of the routes or system which the company is to operate. Said certificate may also contain authorization for the operation by such company of future-built extensions

Upon filing the certificate of incorporation the board of transit control shall, by written or printed notice of ten days, served personally or by mail, call a meeting of the then registered holders of all securities that have been issued by the board of transit control in exchange for the railroads included in the group or system to be operated by such subsidiary company, and appoint inspectors of election to serve thereat. At such meeting, or at any subsequent one to which the same may be adjourned, a majority in amount of such securities represented may elect persons, of a number to be theretofore determined by the board of transit control, not less than nine, who shall be directors for one year of the corporation formed for the purpose of operating such railroads. Within ten days after the election of such directors the board of transit control shall deliver to them a certificate in duplicate, setting forth the certificate of incorporation and organization of the corporation for the purposes therein mentioned, and within five days after the reception by them of such certificate, such directors shall file it in the office of the secretary of state, and a duplicate of the same in the office of the clerk of the county wherein such railroad shall have its principal office, and thereupon the persons who have so subscribed such certificate of incorporation shall be a corporation by the name specified in such certificate, and be subject to the duties, liabilities and restrictions of such corporation. The board of transit control may provide in the certificate of incorporation of such companies that the right to elect directors thereof shall be vested in others than the stockholders in accordance with the conditions and stipulations contained in the contract or contracts or modification of contracts executed under or in pursuance of the plan or * readjustment.

Every such corporation shall have power, in addition to the powers conferred by the general and stock corporation laws, to exercise all of the powers of the railroad companies whose properties have been, as in this act authorized, vested in the city and leased to such subsidiary operating companies, and all of the powers conferred by the railroad law, being chapter forty-nine of the consolidated laws, and by chapter four of the laws of eighteen hundred and ninety-one, as amended.

§ 185. **Earnings of prisoners.** 1. Subject to the provisions of subdivision two of this section,³ every prisoner confined in the state prisons, reformatories and penitentiaries, and every prisoner serving sentence in the county jails, may, in the discretion of the managing authority of said institution, receive compensation from the earnings of the institution in which he is confined, such compensation to be graded by such managing authority for the time such prisoner may work, but in no case shall the compensation allowed pursuant to this subdivision⁴ to such convicts exceed in amount ten per centum of the earnings of the institution in which they are confined; provided, however, that any compensation allowed pursuant to this subdivision⁵ in excess of one and one-half cents per day shall be based upon an amount of work or labor performed by him at his option in excess of a given amount fixed for him to perform for the benefit of the state, or political subdivision thereof, and in such case his compensation may, in the discretion of such managing authority, be a sum equal to the value of the additional work or labor so performed or to the value of the product or portion thereof produced by such additional work or labor, except that his total compensation shall not in any case exceed the amount of twenty cents a day.

2.⁶ The superintendent of state prisons may adopt rules, which shall be subject to the approval of the governor, for establishing

in all of the state prisons a system of compensation to the prisoners confined therein, for prison labor. Such rules shall provide for the payment of compensation to each prisoner who shall meet the requirements therein established, based upon the net average earnings of the industries for each prisoner in excess of the total average cost for each prisoner of all maintenance and operation for all the institutions under the prison department combined, except the Dannemora state hospital and the Matteawan state hospital, based on the amount as shown in the reports prepared from the institutional records for the immediately preceding fiscal year. The rules may also provide how a credit shall be set up for the prisoner for the value of such labor in excess of the cost of his maintenance, and the manner in which the value of such earnings shall be paid to the prisoner or held in trust for him by the superintendent until his release. Any amount credited to a prisoner under this subdivision, however, shall be subject to the deduction of fines, penalties and forfeitures. Until the adoption and approval of such rules, the compensation of prisoners in the state prisons shall be governed by the provisions of subdivision one.

3. The difference in the rate of compensation, under any provision of this section,⁷ shall be based both upon the pecuniary value of the work performed, and also on the willingness, industry and good conduct of such prisoner; provided, that whenever any prisoner shall forfeit his good time for misconduct or violation of the rules or regulations of the prison, reformatory, penitentiary or county jail, he shall forfeit out of the compensation allowed under this section such an amount as may be determined by the managing authority of any such institution, not to exceed twenty-five cents for each day of good time so forfeited. The managing authority of any such institution may institute and maintain a uniform system of fines, to be imposed at his discretion, in place of his other penalties and punishments, to be deducted from such compensation standing to the credit of any prisoner, for misconduct by such prisoner.

4. If, at any time, the earnings from the industries of a prison are insufficient to provide for the payment hereafter of one and one-half cents per day to each prisoner, the superintendent of state prisons may transfer to such prison necessary moneys to provide for such payments, from moneys, if any, in the capital fund or funds of another state prison or prisons in excess of the needs of the latter institution or institutions; but the amount so transferred to a prison shall not exceed a sum which, together with its own moneys available for payments to prisoners, will provide for the payment of one and one-half cents per day to each prisoner, computed on the basis of its population.

§ 2. This act shall take effect immediately.

§ 2. Partial blindness defined. A person shall be deemed to be partially blind under this act when vision is so defective or so impaired that the person so afflicted must depend upon others, or be favored in open competition to such an extent as to limit his or her field of usefulness and lower his or her earning capacity below the point of self-support, unless taught or trained to earn a livelihood in some special occupation for the blind.

§ 4. When person deemed incapable of self-support. A person shall be deemed incapable of self-support if and whenever the person in question shall be found to be incapable of earning an adequate livelihood and shall be incapable of being taught or trained to earn an adequate livelihood in any of the occupations for the blind that are open to the person in question, or in which it is possible for him or her to be placed through the efforts of the commission.

The auditor or other fiscal officer of the county making the payments shall certify to the auditor or other proper fiscal officer of the county in which the person in question gave up his residence, the amounts of the payments, and the latter, upon receipt of the certificate, shall draw his warrant upon his county treasurer in favor of the other county for the amount named in the certificate.

§ 9. Contents of application. Every application to the commission for relief under this act shall be accompanied by a petition, duly verified by the oath of the person presenting the application, showing

other charges and so liable to be sold, and also a notice that such real estate will, on a day subsequent to the expiration of the said six weeks, specified in such notice, and the succeeding days, be sold at public auction at any court house in the county of Oneida, to discharge the taxes, interest, charges and expenses that may be due thereon at the time of such sale, the publishing of the said notice not to exceed the sum of two dollars for each parcel in such notice so published for each newspaper publishing the same. Proof of the due publication of such list and notice in each newspaper shall within twenty days after the last publication thereof be made and filed in the office of the county clerk of said county, who shall cause the same to be properly indexed. No error or imperfection in any list made up or published shall render any sale void or in any manner affect its validity. On the day of sale specified in the said notice the county treasurer shall commence the sale of such real estate, and he shall continue the sale from day to day until so much of each parcel shall be sold as will be sufficient to pay all the taxes thereon for the years for the taxes of which such sale shall be made, with the interest and charges. The county treasurer may, in his discretion, decline to receive any bid on any parcel of land, if in his opinion, it is made by or for any person not acting in good faith, and any such land shall be sold at such sale the same as if such bid had not been made thereon. In case no purchaser bids the amount due on any lot or parcel, the county treasurer shall bid in such lot or parcel for the county, and it shall be his duty to bid in for the county all lands which have been bid in for the county at any prior tax sale and which have not been duly redeemed or the certificates of sale for which have not been sold or assigned. The treasurer shall make certificates of sale for all lands so bid in by him, describing the lands purchased and specifying the time when a deed therefor can be obtained. Such purchases shall be subject to the same right of redemption as purchases by individuals; and if the land so sold shall not be redeemed the county treasurer's deed therefor shall have the same effect and become absolute in the same time, and on the performance of like conditions, as in the case of sales and conveyances to individuals. The treasurer may sell and assign any certificate of sale of lands bid in for the county at any time before the expiration of the period of redemption on such terms as to him shall seem for the best interest of the county. If any such tax sale certificate shall not have been sold or assigned prior to the expiration of the period of redemption the treasurer shall issue to the board of supervisors of the county a deed or deeds for all of the lands described therein remaining unredeemed. The title thus acquired by said board shall be held by it in trust for said county of Oneida and may be disposed of by it at such times, in such manner, and on such terms as shall be determined by a majority thereof at any regular or special session thereof. After the said board of supervisors have acquired the title in fee to any lands sold for taxes in said county, such lands shall be exempt while so owned by said county from all

No tax or tax sales shall be invalid because of the failure of the collector of any tax district to verify his return to the assessment roll; the certificate of the county treasurer affixed to any assessment roll filed in his office, by the tax collector of any tax district that any tax thereon remains unpaid, shall be presumptive evidence of that fact.

Notice of a special election for the submission of a proposition shall be given in the same manner as for an annual election. Such special election shall be held by the same officers, and conducted and the result canvassed in the same manner as an annual election.

Whenever the use of water or the erection of structures under a license may affect the navigable waters over which the United States shall have lawfully assumed jurisdiction for purposes of navigation, such license shall not be issued until the plans for such use and structures have been submitted to and approved by the federal authorities as required by law and any licenses shall be at all times subject to the lawful exercise of such jurisdiction over the waters affected by the license for the purposes of navigation. Whenever canal lands, structures or surplus canal or canal feeder waters are covered by the license, the license shall not issue unless the superintendent of public works certifies to the commission in writing that the same are not necessary for the navigation or operation of the canals and shall not become effective until endorsed with his approval. 1. Each applicant for a license shall submit to the commission a written verified application in such form as the commission may prescribe and containing such data or information of the applicant's project as the commission may require. It shall be accompanied by proposed plans and specifications 'showing the nature and extent of the applicant's proposed development and estimates of cost as may be required for a full understanding of the proposed project. 'Such maps, plans and specifications when approved by the commission shall be made a part of the license; and thereafter no changes shall be made in such maps, plans or specifications until such changes shall have been approved and made a part of such license by the commission. Applications shall be filed with the commission in the order of their receipt.

2. Each license covering water power sites or lands, the title to which is vested in the state, shall require the payment by the licensee of an annual charge measured by a fair rental value thereof; in other cases, except where the state has no proprietary interest, an equitable annual charge may be made, in determining which the commission shall give consideration to the cost of producing power by others in competition with the licensee;¹⁰ and every license shall require the payment by the licensee of an annual charge for the purpose of reimbursing the state for the cost of administration of the provisions of this article. The commission, by resolution, shall fix and determine such annual charge, and the time or stage of development from which rentals are to be computed, whereupon if one or more applicants signifies his readiness, and establishes to the satisfaction of the commission his ability, to construct and maintain the proposed project, to pay the charge or rental fixed by the commission, and otherwise to comply with the provisions of this article in the use of such water and property, it shall give notice of such determination and of a time, not less than fifteen days from the date of the first publication of the notice, and of the place of a meeting of the commission, to take action on such application or applications.

Each such permit shall be for the sole purpose of maintaining priority of application for a license under the terms of this article for such period or periods, not exceeding a total of three years, as in the discretion of the commission may be necessary for making examinations and surveys, preparing maps, plans, specifications and estimates, and making financial arrangements. The permit shall set forth the conditions under which priority shall be maintained and the license issued, ¹¹ and may prescribe any condition of issuing the license for the protection of the interests of the state. ¹² Only one preliminary permit at a time shall be issued and outstanding for the same project. ¹³ The same preference shall be accorded by the commission in considering applications for a preliminary permit as is accorded in considering applications for a license. ¹⁴ Each preliminary permit shall require the permittee to proceed diligently and immediately to secure the data and to perform the acts required by section six hundred and sixteen hereof. ¹⁵ All investigation work in connection with any operations carried on under the preliminary permit shall be subject to the inspection of the commission, its agents and employees, and, from time to time upon the request of the commission, the permittee shall make full reports to the commission of the progress of the work carried on under the preliminary permit, but such reports shall be confidential until final application is made for the license, unless the commission takes proceedings to revoke the preliminary permit. Waiver of
con-
ditions.

9. In issuing licenses for a minor part only of a complete project, or for a complete project of not more than one hundred horsepower capacity, the commission may in its discretion waive such conditions, provisions and requirements of this article, except the license period of fifty years, as it may deem to be to the public interest to waive under the circumstances.

§ 10. Section six hundred and twenty of such chapter, as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:

¹¹ Remainder of sentence new.

¹² Following sentence new.

§ 620. **Rent reserved; revision of rent.** The annual charge or rental fixed by the commission shall continue for the period of the license, unless the license provides for a readjustment of the charge or rental at a specified time or times, in which case the charge or rental, as fixed by the license, may be revised and readjusted by the commission according to the terms of the license.¹² Payments on account of any such charge or rental shall be treated as a part of the operating expense. Ten days' notice of the time and place of the meeting of the commission at which the question of the revision and readjustment of such charge or rental will be considered shall be given to the licensee. The revision and readjustment shall be in the form of a resolution adopted by the commission, whereupon revised and readjusted rental or charge, unless reviewed and reversed or modified as herein provided, shall apply to and govern the license. Any such determination by the commission may be reviewed upon the facts upon certiorari to the supreme court at the instance of the licensee in the manner provided by the code of civil procedure or civil practice act. Any such proceeding must be instituted within thirty days after the service on the licensee of notice of the determination. Pending the final determination of such proceeding by certiorari, the licensee shall pay to the state the revised and readjusted rental or charge as fixed by the commission; and if it shall be determined that the rental or charge shall be revised, the licensee shall be credited on later payments with any excess he may pay over the rental as finally fixed, with interest. If the credits be insufficient to satisfy such excess, the licensee may recover the balance in the court of claims.

§ 11. Section six hundred and twenty-one of such chapter, as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:¹³

§ 621, as added by L. 1921, ch. 579, amended.

§ 621. **Reservations in the license; state control of rates and use and distribution of power.** Every license issued under this article for a project shall contain a provision expressly reserving to the state the right to regulate and control the use and distribution of the power generated by any licensee, and to fix reasonable rates to be charged by the licensee under all circumstances for furnishing heat, light or power generated wholly or partly by the use of property covered by the license, and to regulate the service, capitalization and secured debt of the licensee and licensed project. Jurisdiction is hereby conferred upon, and it shall be the duty of, the public service commission to regulate and control the use and distribution of all power generated by any licensee under this article, or generated by any person, association of persons or corporation by the use and diversion for power purposes of any waters of the state in which the state has a proprietary right or interest, or the bed of which or other real property used in such developments is vested in the state, whether

such development is pursuant to permit or legislative grant heretofore made, and to fix reasonable rates to be charged by such licensee or such person, association of persons, or corporation for furnishing heat, light or power generated wholly or partly by the use of water or property in which the state has a proprietary right or interest. In the exercise of such jurisdiction the public service commission shall give preference to municipalities in the use and distribution of power generated by such licensee, or by such person, association of persons or corporation. No municipality shall use, distribute or sell such power generated by such licensee in whole or in part in any manner by the use and diversion for power purposes of any waters of the state in which the state has a proprietary right or interest, or the bed of which or other real property used in such development is vested in the state, whether such development is pursuant to permit or legislative grant heretofore made, for any purpose, other than municipal purposes, in competition with an existing public utility, unless such municipality first secures a certificate of convenience and necessity from the public service commission. To carry out the provisions of this section, and until otherwise provided by law, complaints, inspections, investigations, hearings, rules, regulations, orders and determinations may be made or had, and rules, regulations and orders enforced, in the manner, so far as applicable, provided in the public service commissions law in respect of electrical corporations and of the manufacture, sale and distribution of electricity.

Every license issued pursuant to this act shall contain a condition that the development of power thereunder shall be subject to the control and authority of the public service commission to the extent conferred upon such commission by this section.

§ 622, as

L. 1921,
ch. 579,
amended.

§ 12. Section six hundred and twenty-two of such chapter, as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:

§ 622. **Prosecution of project works.** The licensee shall commence the construction of the project works within the time fixed therefor in the license. He shall thereafter in good faith and with due diligence continue the construction thereof, and within the time fixed in the license complete and put into operation the whole of such development work or such part or parts thereof as the license prescribes; except that when not incompatible with the public interest, the commission may, from time to time, for good cause, by resolution extend the time either for the commencement of construction or for the completion thereof. ¹⁴ The licensee shall, when required by the commission, and as often as once in every six months during the course of the construction, file with the commission a detailed statement of the cost of the project during the period covered by the statement. Within six months after the licensee has filed its final statement after the completion of the project, the commission shall file a statement of

¹⁴ Remainder of section new.

the total cost of the investment. The commission at such time or times as it deems proper may examine any statement of the licensee, whether partial or complete, and hold a hearing to determine whether the same correctly states the cost of the project or part thereof, as therein set forth, and shall have power to determine whether any part of the expenditure has been made wastefully, or in disregard of the terms of the license, or in bad faith, and to deduct such items improperly included as may be necessary to make such statement or statements conform to the fair and actual cost of the project or part thereof. Subject to review as herein provided, the determination of the commission shall be conclusive for all purposes as to the amount of such investment as shown by any such statement.

§ 13. Subdivision three of section six hundred and twenty-four of such chapter as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one is hereby amended to read as follows: § 624, subd. 3, as added by L. 1921, ch. 579, amended.

3. Real property, on the application of a corporation organized for the production of heat, light or power, after a determination by the public service commission that such property is necessary to the full development and utilization of a single undeveloped water power site, a major part of the head and volume of the usable flow for power at which site is owned by such corporation, for the production of heat, light or power for sale or distribution to the public and that such heat, light or power is necessary for public use. ¹⁵ In any county containing a part of the forest preserve as now constituted, for the purpose of establishing the right to exercise the power of eminent domain under this subdivision the ownership of wild or unoccupied land shall be presumed to be in an applicant showing a record title under which the applicant or his grantors has claimed for a period of twenty years and it appears that the state and county taxes thereon have been paid by or on behalf of such applicant or his grantors for a period of five years before the proceeding in which the application is made was begun; ownership in other lands wherever located shall be presumed on showing record title in the applicant for a period of twenty years and possession thereunder for a like period. Acquisition of real property by eminent domain.

Such right of eminent domain shall be exercised under the condemnation law subject to the following restrictions and limitations: Restrictions.

(a) The acquisition of real property for the state shall be on the application of the commission, and payment therefor shall be made in the manner provided for the payment of lands appropriated by the state in the Adirondack and Catskill parks under subdivisions six, seven and eight of section fifty-nine of this chapter.

(b) If a water power site be taken under subdivision two of this section, the owner of any such power site shall have the

¹⁵ Following sentence new.

option to receive and own such a proportion of the power resulting from the common development as the head and volume of the usable flow of the water at the site bears to the product of the total head and volume of the usable flow of the waters of the common development, provided he pays a like proportion of the cost of development, maintenance and operation, and consents that his pro rata share of such power shall be pledged to secure such payment, and assents to such reasonable and equitable provisions and regulations in relation to the development and operation thereof for the common benefit and to payment therefor as the commission shall prescribe. In case of the exercise of such option by the owner of a developed water power site, such owner shall also be allowed the loss, if any, resulting to him from the excess in value, if any, of the water power owned by him before such common development over the water power right owned by him after such development, after deducting from the value of such power right his proportion of the cost of such development. Such difference in value shall be deemed a part of the damages in the condemnation proceeding, and the payment thereof shall be secured as directed by the court.

(c) Before any real property is taken under the provisions of subdivision two of this section, the owner or owners of the right to the use of the greater part of the head and volume of usable flow for power at the sites to be developed in common shall, unless such a corporation be already organized and be the owner of such rights, organize a corporation for the production, distribution and sale of heat, light and power to the public, and shall transfer to such corporation such sites. Such corporation shall file with the public service commission a certified copy of its certificate of incorporation and shall also file with such commission a map of the water power sites, and property connected therewith, of which it is the owner, with satisfactory proof that it is the owner thereof, and a map of the water power sites and property which it seeks to acquire for the purpose of making a common development. It shall also file with such commission a plan of its proposed development of water power on the property which it owns and which it seeks to acquire. Such corporation shall file copies of such maps and plan certified by the president and engineer of the corporation, or a majority of the directors, in the office of the clerk of the county in which such development is to be made, or, if it be in more than one county, in the office of the clerk of each county; and shall give written notice to all actual occupants of lands of which it is not the owner on which such development is to be made of the time and place such maps and plan were filed, and that such development is to be made on the lands of such occupants. The public service commission shall give an opportunity to persons interested to be heard, investigate and determine whether it is in the public interest that such development be made and whether the power to be produced is necessary for the supply of the public with heat, light or power. If it shall so determine, it may issue to such

corporation a certificate that public convenience and ¹⁶ necessity require that such development be made, but in granting said certificate the commission may expressly except from its certificate any part of the property proposed to be developed as unnecessary to the plan. Such certificate when issued shall be conclusive evidence as to the matters lawfully certified therein in any proceeding under the condemnation law to acquire the property, or any part thereof, set forth in such certificate.¹⁷

§ 14. Section six hundred and twenty-four of such chapter, as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, is hereby amended by inserting therein four new subdivisions, to be subdivisions four, five, six and seven, to read as follows:

Subds. 4-7
added by
§ 824, as
added to
L. 1921,
ch. 879.

4. Real property, on the application of a corporation authorized to do business in this state and engaged in the production, sale and distribution of heat, light or power to the public, which is necessary to perfect or improve water power already developed, provided that property taken does not impair or injure any developed water power or developed water power site. The corporation may apply for and in a proper case receive from the public service commission a certificate of convenience and necessity for taking the property so to be acquired in the manner and with like effect as provided in paragraph (c) of subdivision three of this section. Any such corporation may also exercise the right of eminent domain to acquire real property in accordance with the provisions of subdivisions two and three of this section.

Acquisition
of real
property by
eminent
domain.

5. If it appears that there is a defect of title or any outstanding interest in any of the real property occupied or to be occupied by the project when completed, the corporation making, or having the right to make, the development of the water power may exercise the right of eminent domain for the purpose of acquiring any such outstanding interest or any real property with respect to which the title appears to be or is defective.

6. In any county containing a part of the forest preserve as now constituted, real property, on the application of a corporation organized for the production of heat, light or power, necessary for the development of a water power site or sites, developed or about to be developed, and occupied by a railroad and real property necessary to and for the relocation of such railroad, upon application to and on order of the public service commission authorizing the same and upon thirty days' notice to the railroad corporation. The public service commission shall grant the order if in its judgment the public interest will be promoted thereby. The relocation of the railroad shall be at the expense of the applicant and in accordance with plans and specifications to be approved by such commission. The applicant shall not take possession of any real property of the railroad necessary for its operation until such relocation of the railroad shall have been completed. The public service commission upon the assent of

the railroad may order the abandonment of such part of the railroad as is necessary to be taken instead of ordering a relocation thereof.

7. Real property, on the application of a corporation organized for the production of heat, light or power, which is necessary for the full development of a water power site or sites, developed or about to be developed, and is used or occupied as a burial place or cemetery, and real property necessary to locate and reinter any human remains removed therefrom. Proceedings shall be had for the taking of such real property and removal of such remains in the manner provided by section four hundred and forty-seven of article seven-a of the conservation law, in so far as the provisions thereof are applicable thereto, but such exercise of the right of eminent domain shall be subject to the sound discretion of the court.

§ 624a
added.

§ 15. Such chapter is hereby amended by inserting therein, after section six hundred and twenty-four, a new section, to be section six hundred and twenty-four-a, to read as follows:

§ 624-a. **Use of lands occupied by a public highway.** Whenever, in order to complete any project as provided by this act, it becomes necessary to use lands occupied by a public highway the licensee shall apply to the state commission of highways for permission to relocate such highway, the entire expense of such relocation to be borne entirely by the licensee including any damages to persons or property which may be caused by or result from such location. The new location shall be determined by the state commission of highways and the application of the licensee shall be accompanied by funds in an amount sufficient to provide for the cost of a survey, preliminary plans and all other expenses of the highway commission in determining a suitable relocation.

The licensee shall provide the necessary land for such relocated highway in accordance with land taking maps prepared by the state commission of highways. If such relocation is on state land the fee to the land covered by the right of way shall remain in the state. If the licensee acquires private property for right of way in the relocation of a state or county highway the fee in such right of way shall be deeded to the county or counties in which the same is situated. If the licensee acquires private property for right of way in the relocation of a town highway the fee in such right of way shall be deeded to the town or towns in which the same is situated.

Any such relocation shall be made by the licensee according to plans and specifications approved by the state commissioner of highways.

Upon the completion and acceptance of such relocated highway the original highway for which it is substituted shall be deemed abandoned as a public highway and the relocated highway shall thereafter be maintained in the same manner as was the original highway for which it was substituted.

The highway law shall apply to the relocation of highways as provided in this section so far as applicable thereto and not inconsistent with this act.

§ 16. Section six hundred and twenty-nine of such chapter, ^{§ 629, as added by L. 1921, ch. 579, amended.} as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:

§ 629. Revocation of license for non-payment of rent and causes. The commission, by resolution, may terminate and revoke any license for the failure of the licensee to pay, at the time or times provided in the license, the charge or rental provided for in the license or fixed pursuant to law, or for failure promptly to comply with any of the terms, conditions or provisions of this article, or of the license, or with any direction, order, rule or regulation given or made by the commission or otherwise, pursuant to the license or provisions of law.

No resolution terminating or revoking a license shall be adopted until the licensee is afforded an opportunity to appear before the commission and be heard with respect thereto. Ten days' notice of the time and place of the meeting of the commission at which the resolution will be considered shall be given to the licensee.

If the license is terminated or revoked, the state may elect to take any and all interest of the licensee in and to state property covered by the license including all works and structures thereon.

In the event that a license is terminated or revoked as herein provided, the commission may, subject to the making of adequate appropriations therefor, enter into a written agreement with the licensee, providing for the payment to him of the enhanced value, if any, of state property covered by the license resulting from any improvements of the same made or effected by the licensee, not exceeding, however, the reconstruction cost, less the deductions hereinafter provided.¹⁸ If the amount involved does not exceed the indebtedness which may be lawfully incurred for such purpose without an appropriation, such agreement may provide for the payment thereof before an appropriation is made.

In the event that the licensee and the commission are unable to agree upon the amount of damages payable to the licensee as above provided, and the same does not exceed the indebtedness which may be lawfully incurred, for such purpose without an appropriation being made therefor, the licensee may recover of the state in the court of claims the amount of enhanced value, if any, of the licensed property owned by the state, resulting from any and all existing improvements of the same made or effected by the licensee, not exceeding, however, the reconstruction cost,¹⁹ less a deduction equal to that portion, if any, of the aggregate income from the project, over and above actual and reasonable expenses of operation, including repairs, which shall exceed an amount equal to eight per centum per annum, to the time that the state property is taken over by the state, of the actual and reasonable cost to the licensee of the lands and interests in lands, the actual and reasonable cost to the licensee of the ways, means

and works and the allowance made for organization and development expenses. If the amount of damages shall exceed the amount of such lawful indebtedness, the revocation shall not take effect until an adequate appropriation has been made therefor and in such case damages may be in like manner recovered in the court of claims.

§ 631, as
added by
L. 1921,
ch. 579,
amended.

§ 17. Section six hundred and thirty-one of such chapter, as added by chapter five hundred and seventy-nine of the laws of nineteen hundred and twenty-one, is hereby amended to read as follows:

§ 631. Re-entry at the expiration of the license period.

1. Upon the expiration of the original license period any and all interest of the licensee in and to state property which is covered by the license, together with any and all works and structures thereon, shall vest in and become the property of the state free and clear of any and all liens and encumbrances provided, however, that the commission may at the time the license is granted, or at any later time during its continuance, enter into an agreement with the licensee that an allowance will be made to the licensee for and on account of improvements to property of the state, or improvements the value of which is dependent on the use of state property, for which in view of the rent paid the licensee shall not have been compensated by the privilege of the license, but such agreement must be made before improvement for which such allowance is to be made is undertaken. If the amount of such allowance exceed the amount of indebtedness, which may be lawfully incurred for such purposes without an appropriation, the time when such property is vested in the state shall be postponed until an adequate appropriation is made therefor. The allowance so made or to be made may be by way of an extension of the license pursuant to an agreement between the commission and the licensee.

2.²⁰ Any agreement with the licensee for an allowance on account of improvements to property of the state or improvements the value of which is dependent on the use of state property, shall not provide for an allowance in excess of the reconstruction cost, less a deduction equal to that portion, if any, of the aggregate income from the project, over and above actual and reasonable expenses of operation, including repairs, which shall exceed an amount equal to eight per centum per annum, to the time that the state property is taken over by the state, of the actual and reasonable cost to the licensee of the lands and interests in lands, the actual and reasonable cost to the licensee of the ways, means and works and the allowances made for organization and development expenses.

No such review shall be granted on the application of a person or public or private corporation other than the state unless such person or public or private corporation shall give an undertaking to be approved by the court or a justice thereof as to form, amount and sufficiency of sureties; that in the event of failure to reverse or modify said order or direction, he or it will pay to the commission all such costs and expenses as are incurred by it on account of the proceeding as shall be determined by the court.

Section 1. Section three hundred of chapter forty-nine of the laws of nineteen hundred and nine, entitled "An act in relation to the public health, constituting chapter forty-five of the consolidated laws," is hereby amended to read as follows:¹

L. 1909, ch. 49, § 304 amended.

§ 300. **Definition; application of article.** A person practices optometry within the meaning of this article who by any means or methods, other than by the use of drugs, diagnoses any optical deficiency or deformity, visual or muscular anomaly of the human eye, or prescribes lenses, prisms or ocular exercises for the correction or relief of the same, or who holds himself out as being able so to do.

receiving such preliminary education has prior to January first, nineteen hundred and thirty, graduated from a school of optometry having a course of not less than two years and maintaining a standard satisfactory to the board of regents, and after January first, nineteen hundred and thirty, has graduated from a school of optometry conducted as a department of a university registered by the board of regents with either the degree of bachelor of arts or that of bachelor of science and a certificate of graduation in optometry, shall take an examination before the board of examiners to determine his qualifications. Every candidate successfully passing such examination shall be registered by the board of regents as possessing the qualifications required by this article and shall receive from said board of regents a certificate thereof.

Applicants nineteen years of age certified as having satisfactorily completed the first two years of a four year course of optometry in an optometry school registered as maintaining at the time a satisfactory standard, may be admitted conditionally to the examination in such subjects as are prescribed to be complete with such two years.

Any person who shall submit to said board of examiners satisfactory proof as to his character, competency, and qualifications, and that he has been continuously engaged in the practice of optometry in this state for more than two years next prior to the time that chapter four hundred and sixty of the laws of nineteen hundred and eight took effect, may upon the recommendation of said board of examiners receive from the board of regents a certificate of exemption from such examination, which certificate shall be registered and entitle him to practice optometry under this article. Every person who was, on the twenty-first day of May, nineteen hundred and eight, when section two hundred and nine-b of the public health law, as then known, took effect, entitled to a certificate of exemption as therein provided, but who failed or neglected to make application therefor and present evidence to entitle him thereto, on or before January first, nineteen hundred and nine, as provided by said section, must make such application and present such evidence on or before July first, nineteen hundred and nine, or he shall be deemed to have waived his right to such certificate. If any person whose registration is not legal or who is not registered because of some error, misunderstanding or unintentional omission, shall submit to the state board of examiners in optometry, or to the regents of the university of the state of New York, satisfactory proof that he had all the requirements prescribed by law at the time required for registration and was entitled to be legally registered, he may, on unanimous recommendation of the state board of examiners in optometry, or by action of the board of regents, receive from the regents under seal a certificate of the facts which may be registered by any county clerk and shall make valid the previous imperfect registration and such certificate shall include the date on which such person could or should have reg-

istered, and his registration shall be deemed to have been valid and corrected from that date. Before any certificate is issued it shall be numbered and recorded in a book kept in the regents' office and its number shall be noted upon the certificate. A photograph of the person registered shall be filed with the record and a duplicate thereof affixed to the certificate. In all legal proceedings the record and photograph so kept in the regents' office or certified copies thereof shall be prima facie evidence of the facts therein stated.

For the purpose of changing the status of an optometrist licensed by exemption to that of one licensed by examination, the regents may in their discretion admit to examination any optometrist duly licensed by exemption, who in lieu of the preliminary and professional requirements prescribed, presents satisfactory evidence that he has continuously and in conformity to law practiced optometry in the state of New York for a period of not less than ten years.

No person shall be deemed eligible to make application for a certificate of exemption or a certificate of fact after January first, nineteen hundred and twenty-three.

Upon the recommendation of the board, the regents may also without the examination herein provided, endorse a certificate to practice optometry in any other state or country granted after examination by a legally constituted board of examiners in optometry upon payment of the statutory fee by the applicant and provided that his preliminary and professional education shall have been not less than those required by this state, and provided that he shall have been in reputable practice continuously for not less than five years immediately next preceding his application.

§ 3. Such chapter is hereby amended by inserting therein a new section, to be section three hundred and three-a, to read as follows: § 303a

Nothing in this article shall affect the standing of any degrees in optometry conferred prior to the amendment of this act.

Such property and any other property hereafter acquired by the state for state fair purposes shall be under the management and control of the state fair commission as hereinafter provided, and it may, from time to time, make rules and provide for the care, preservation and improvement thereof.

§ 6. **State fair commission.** The state fair commission shall consist of seven members, of whom the president of the senate and the commissioner of farms and markets shall ex officio constitute two. The remaining five members of such commission

§ 7. **State fair.** It shall be the duty of the said commission to hold a state fair at such times as it may deem proper, except that said state fair shall not be held on the first Monday in September, known as Labor day, and between January first and February fifteenth in each calendar year to publish the time of holding said fair in such year. Such commission shall cause a map to be made of the real property which it shall determine to take, showing the boundaries thereof and the name of the owner or reputed owner thereof as nearly as the same can be ascertained, and shall file such map, certified by the commission, in the office of the secretary of state and of the county clerk of the county in which such real property is located. From the time of the filing of such map the property therein specified shall become and be the property of the state of New York and shall be applicable to state fair purposes as provided by this article.

§ 11. **Notice of intention to take.** Within ten days after filing such map the state fair commission shall cause to be published once in each week for three successive weeks, in two newspapers published in the county in which such real property is located, a notice that such map has been so filed and that the state fair commission intends to take and appropriate real property shown on such map and described in such notice, and acquire title thereto and hold the same in trust for the people of the state of New York, and that such commission intends to apply to the supreme court in the judicial district in which such real property is located, not more than thirty days after the first publication of such notice, for the appointment of three freeholders, residents of the state of New York, to act as commissioners of appraisal, to ascertain and report the just compensation to be paid to the persons or corporations owning or having an interest in such real property.

§ 12. **Appointment of commissioners of appraisal.** On the day designated in such notice or some other day to be named by the court, such court shall hear the application of the state fair commission, and shall appoint three disinterested persons, freeholders and residents of the state of New York, commissioners of appraisal. At the time and place fixed for such notice or at any such further or other times and places as such commissioners may appoint, such commissioners shall hear such owners and examine the proof of such claimant or claimants, or such additional proof and allegations as may then be offered by such owners or on behalf of the state fair commission. They shall give notice of the time and place of their meeting to view such real property, hereinafter provided for, by publishing the same in a newspaper printed and published in the county in which the real property so taken is situated.

§ 14. **Duties of appraisers; report.** The commissioners of appraisement shall together view such property and shall receive any legal evidence as to the compensation that shall be made therefor, and may adjourn from time to time. They shall ascertain and award to the owner or to the respective owners of the property to be taken, and to all persons and corporations interested therein, such compensation therefor as in their opinion shall be just and proper and in fixing the amount of such compensation such commissioners shall not make any allowance or deductions on account of benefits. The report of the commissioners of appraisement, signed by a majority of such commissioners, shall be filed in the office of the clerk of the county in which the real property taken is situated, as soon as completed, and such report shall be made and filed within three months from the time of their appointment. Their oaths of qualifications and their minutes of testimony taken by them, if any, shall be attached to and filed with such report and form a part thereof.

§ 15. **Notice of application to confirm report.** After the report of such commissioners of appraisement shall be so filed the state fair commission shall give notice by publishing the same once in each week for two successive weeks in a newspaper printed and published in the county in which the real property taken is situated, that they will on a day to be specified in such notice apply to the supreme court for an order confirming the report, and on the day so appointed such court, upon proof of the due publication of such notice, shall confirm such report and make an order containing a recital of the substance of the proceedings in the matter of the appraisement and a description of the real property appraised for which compensation is to be

made, and the amount of compensation to be made in each case, and shall also direct to whom the money is to be paid. Such court shall also tax and allow such costs, fees and expenses to the commissioners of appraisement and other persons performing any legal duties in the premises as it shall think equitable and right, which shall be paid by the state fair commission.

§ 16. **Order to be recorded.** A certified copy of the order so to be made shall be recorded at full length in the office of the clerk of the county in which the real property taken is situated, and also in the office of the secretary of state.

§ 17. **Appeal.** Within twenty days after the confirmation of the report of the commissioners of appraisement, any party may appeal on giving notice in writing to the other by petition to the appellate division of the supreme court of the judicial department in which the real property taken is situated, from the appraisal and report of the commissioners. Such appeal shall be heard by such appellate division at the next thereafter ensuing term thereof on due notice thereof being given according to the rules and practice of such court. On the hearing of such appeal the court may direct a new appraisement before the same or new commissioners to be appointed by it, in its discretion. If the court shall order a new appraisement the appraisers appointed to make the same shall qualify and proceed in all respects as provided in this article, and such second appraisement shall be final and conclusive upon both parties.

§ 18. **Payment of award.** The amounts awarded by such commissioners shall be paid by the treasurer on the warrant of the comptroller upon the order of the state fair commission, out of moneys appropriated for the acquisition of such real property. If there be conflicting claimants, or if the person entitled to receive money so awarded cannot be ascertained, or is absent from the state, or under any legal incapacity that disqualifies him from receiving legal payment of the moneys so awarded, then the amount awarded on account of the right, title or interest of any such person may, on order of the state fair commission, be paid to the treasurer of the county in which the real property taken is situated, who shall receive the same and pay over the same as he may be ordered by the supreme court, which upon application thereto shall determine who is entitled to the same, and direct to whom the same shall be paid, and may in its discretion order a reference to ascertain the facts upon which such determination and order are to be made. Any payment to such treasurer shall be equivalent to payment to the parties entitled thereto, as if payment had been made directly to the party entitled thereto and shall release the state fair commission and the state of New York from all claim therefor.

¹² Section 4 materially amended.

dred and one of the laws of nineteen hundred and nine and last amended by chapter four hundred and seven of the laws of nineteen hundred and twenty-one,¹ is hereby amended to read as follows:

§ 101. **Standard provisions.** On and after January first, nineteen hundred and ten, no policy of life or endowment insurance shall be issued or delivered in this state unless and until a copy of the form thereof has been filed with the superintendent of insurance and formally² approved by him; nor shall such policy, except policies of industrial insurance where the premiums are payable weekly, be so issued or delivered unless it contains in substance the following provisions:

1. A provision that the insured is entitled to a grace either of thirty days or of one month within which the payment of any premium after the first year may be made, subject at the option of the company to any interest charge not in excess of six per centum per annum for the number of days of grace elapsing before the payment of the premium, during which period of grace the policy shall continue in full force, but in case the policy becomes a claim during the said period of grace before the overdue premium or the deferred premiums of the current policy year if any are paid, the amount of such premiums, with interest on any overdue premium, may be deducted from any amount payable under the policy in settlement.

2. A provision that the policy shall be incontestible after it has been in force during the lifetime of the insured for a period of two years from its date of issue except for non-payment of premiums and except for violation of the conditions of the policy relating to military or naval service in time of war.

3. A provision that the policy shall constitute the entire contract between the parties, but if the company desires to make the application a part of the contract it may do so provided a copy of such application shall be indorsed upon or attached to the policy when issued, and in such case the policy shall contain a provision that the policy and the application therefor shall constitute the entire contract between the parties.

4. A provision that if the age of the insured has been misstated the amount payable under the policy shall be such as the premium would have purchased at the correct age.

5. A provision that the policy shall participate in the surplus of the company annually.

6. A provision specifying the options to which the policyholder is entitled in the event of default in a premium payment after three full annual premiums shall have been paid.

7. A provision that after three full years' premiums have been paid, the company at any time, while the policy is in force, will advance, on proper assignment or pledge of the policy and on the sole security thereof, at a specified rate of interest, a sum equal

A company may, in lieu of the provision hereinabove permitted for the deduction from a loan on the policy of a sum not more than two and one-half per centum of the amount insured by the policy and of any dividend additions thereto, insert in the policy a provision that one-fifth of the entire reserve may be deducted in case of a loan under the policy, or may provide therein that the deduction may be the said two and one-half per centum or the one-fifth of the said entire reserve at the option of the company. ³ The policy may further provide that if the interest on the loan is not paid when due it shall be added to the existing loan, and shall bear interest at the same rate.

8. A table showing in figures the loan values, if any, and the options available under the policy each year upon default in premium payments, during at least the first twenty years of the policy.

9. In case the proceeds of a policy are payable in installments or as an annuity, a table showing the amounts of the installments or annuity payments.

10. A provision that the holder of a policy shall be entitled to have the policy reinstated at any time within three years from the date of default unless the cash value has been duly paid, or the extension period expired, upon the production of evidence of insurability satisfactory to the company and the payment of all overdue premiums and any other indebtedness to the company upon said policy with interest at a rate not exceeding six per centum per annum payable annually.

Any of the foregoing provisions or portions thereof not applicable to single premium or nonparticipating or terms * policies, shall to that extent not be incorporated therein; and any such policy may be issued or delivered in this state which in the opinion of the superintendent of insurance contains provisions on any one or more of the several foregoing requirements more favorable to the policyholder than hereinbefore required. ⁴ For the purposes of this section application forms, rider forms and indorsement forms for use in connection with any such policy shall be deemed to be parts of policies and shall require the approval of the superintendent of insurance. In the total cost shall be included the interest paid or to be paid on notes issued by the village to pay the expense of the improvement pursuant to section nine of this act and all other expenses incident to the improvement and the assessments therefor. The said board shall thereupon determine the amount of the portion of said total cost which is to be borne by any street railway company as hereinbefore provided, if any, and also the amount of the portion of said total cost which is to be borne by the owners of abutting property, if any, and also the amount of the portion of said total cost, if any, which is to be borne by the village at large. If any portion of said cost is to be borne by the owners of abutting property the said board of trustees shall specially assess the amount of said portion of said cost upon the lots and parcels of land abutting directly on the street improvement, according to the extent of their respective frontages thereon, by an equal rate per foot of such frontage. For the purpose of levying such special assessments that part of a street improvement which is made at street intersections shall be treated like any other part of the improvement and the cost thereof may be assessed upon the lots and parcels of land abutting upon any part of the improvement. For the purpose of levying special assessments pursuant to this section the said board of trustees shall make out an assessment roll in which shall be entered the names of the persons assessed, as far as the said board can ascertain the same, the amount assessed against them, respectively, with a brief description of the lots or parcels of land assessed. Immediately after such assessment roll has been completed the board of trustees shall cause it to be deposited in the office of the village clerk for inspection by parties interested, and shall cause to be published a notice of the completion of the assessment roll, setting forth a description in general terms of the street improvement, and the time at which said board will meet for the purpose of hearing allegations and objections in respect of the special assessment, which meeting shall not be earlier than ten days after the first publication of said notice. Any number of assessment rolls may be included in one notice. At the time so appointed, or at some other time to which it may adjourn for that purpose, the board of trustees shall hear the allegations and objections of all persons interested who appear, and may make proof in relation thereto. The board of trustees may thereupon correct such assessment roll and either confirm the same or set it aside and provide for a new assessment. Whenever the board of trustees shall con-

firm such an assessment the village clerk shall enter on the minutes of the board of trustees the date, hour and minute of such confirmation, and from the time of such confirmation the assessments embraced in the assessment roll shall be a lien on the real property against which the same are assessed, superior to all other liens and encumbrances. After the assessment roll is confirmed, a copy of the same shall be delivered to the officer charged with the duty of collecting taxes in said village, and said assessments shall be collected in the same manner as taxes are collected in said village. § 6. The said board of trustees may correct, cancel or remit any assessment made under this section and may remit, cancel or adjust the interest or penalties on any such assessment. The said board of trustees may, when in its judgment there is any irregularity, omission or error in any of the proceedings relating thereto, set aside the whole of a special assessment made by it and thereupon make a re-assessment. In such case there shall be included, as a part of the cost of the street improvement involved, all interest paid or accrued on moneys borrowed by the village for the purpose of paying in the first instance the share of the cost of the improvement which has been or is to be specially assessed, and the proceedings shall be in all respects as in cases of an original special assessment, and such re-assessment shall have the same authority and binding force as if it had originally been properly made. Any person who may have paid a former assessment may be credited on a re-assessment with the amount so paid. Correction, cancellation or remission of assessment; re-assessment.

§ 7. Any property owner and any street railway company on whom or on whose property an assessment shall be levied for a street improvement as hereinbefore provided shall, if the said board of trustees shall so provide, have the option and privilege of paying said assessment either in one sum or in not more than ten equal annual installments, as may be determined by the said board of trustees. Such installments shall bear interest at the rate of six per centum per annum from the date of the confirmation of the assessment roll, and in case of the failure or neglect of any property owner or street railway company to pay any installment when the same shall become due and payable, then and in that event all of said installments remaining unpaid shall at once become due and payable and said property and franchises may be sold by the said board of trustees under the same rules, regulations, rights of redemption and savings as are now prescribed by law for the sale of land for unpaid taxes. The whole assessment may be paid at the time of paying any installment by payment of the principal and all interest accrued to that date. If any assessment or installment thereof is not paid when due it shall be subject to the same penalties as are now prescribed for unpaid taxes, in addition to the interest herein provided for. § 9. At any time before the cost of a street improvement shall be computed and ascertained as hereinbefore provided, the said board of trustees may from time to time borrow money upon the credit of the village to the extent required to pay the cost of said improvement or to repay any money borrowed under this section with interest thereon, and may issue notes of the village for the money so borrowed, payable either on demand or at a fixed time not more than six months from the date thereof. Said notes may be sold at public or private sale. Any temporary indebtedness incurred under this section, with the interest thereon, may be paid out of moneys raised by the issue and sale of bonds or certificates of indebtedness to be issued as hereinafter provided, or by means of special assessments levied for the street improvements, or may be included in the annual tax levy.

§ 10. At any time before or after the cost of a street improvement shall be computed and ascertained as hereinbefore provided, the said board of trustees may by resolution cause to be issued bonds of the village for the purpose of paying all or any part of the actual or estimated amount of that portion of the cost of a street improvement which is to be borne by the village at large, or for the purpose of paying temporary indebtedness incurred for said purpose. Such bonds shall be known as local improvement bonds. They shall be made payable in annual installments, the first of which shall fall due not more than two years after the date of said bonds, and the last not more than twenty-five years after said date. There shall be raised annually by tax upon all the taxable property in said village, after the issuance of said bonds, a sum sufficient to pay the principal and interest of said bonds as such principal and interest fall due. The village's share of the cost of two or more street improvements may be included in a single bond issue. The total amount of bonds at any one time outstanding issued by said village under this act or under chapter five hundred and seventeen of the laws of eighteen hundred and ninety-nine for the purpose of paying that part or proportion of the expense of a street improvement which is to be borne by the village at large, shall not exceed five per centum of the assessed valuation of property in said village, subject to taxation, as it appeared on the last corrected assessment roll thereof.

§ 11. At any time before or after the cost of a street improvement shall be computed and ascertained as hereinbefore provided, the said board of trustees may, in anticipation of the collection of special assessments, by resolution cause to be issued certificates of indebtedness or bonds (to be known as assessment bonds), for the purpose of paying all or any part of the actual or estimated amount of that portion of the cost of a street improvement which is to be borne by or shall have been or is to be assessed upon abutting property or a street railway company, or for the purpose of paying temporary indebtedness incurred for said purpose. Such bonds or certificates of indebtedness shall be made payable in annual installments, the first of which shall fall due not more

than two years after the date of said bonds or certificates of indebtedness, and the last not more than ten years after said date. All moneys derived from the collection of the assessments upon which special assessment bonds or certificates of indebtedness are predicated, collected after the passage of the resolution authorizing the issuance of such bonds or certificates, shall be placed in a special fund and used only for the purpose of paying the principal and interest of such bonds and certificates; and if at the time of the annual tax levy for any year it shall appear to said board of trustees that such fund will for any cause be insufficient to meet the principal and interest of all such bonds and certificates falling due during such year, the estimated amount of the deficiency may be included in such tax levy; provided, however, that it shall be lawful for said board of trustees to provide for the payment of such a deficiency by issuing additional assessment bonds or certificates of indebtedness, maturing within three years after their date, and not exceeding in amount the amount of the uncollected special assessments. The amount of the special assessments for two or more street improvements may be included in a single issue of assessment bonds or certificates of indebtedness.

§ 12. Bonds, notes and certificates of indebtedness issued under this act shall be of such denomination, bear such rate of interest, not exceeding six per centum per annum, payable semi-annually, and be payable at such places, and be in such form, as the said board of trustees may by resolution provide. They shall be signed by the president and treasurer of said village, attested by the village clerk, and sealed with the corporate seal of the village. Coupons attached to such bonds, notes or certificates shall bear the facsimile signature of one or more of said officers. Said bonds, notes and certificates of indebtedness shall not be sold for less than their par value. They may recite that they are issued pursuant to this act, and such recital shall be conclusive evidence of their validity and of the regularity of their issuance. The validity of such bonds, notes or certificates of indebtedness shall not be affected by any invalidity in the making of the improvements for which they are issued or in the special assessments levied for such improvements.

§ 13. In all cases where, pursuant to the highway law, or to any other law, a street improvement or improvements shall be made or shall be about to be made in or upon a state, county or other highway in said village, and said village shall be required or permitted by law to pay a part of the cost thereof to the state of New York, or the county of Westchester, the said board of trustees may provide for the payment of the amount so required or permitted to be paid to the state or county in the same manner in which it is authorized by this act to provide for the payment of a street improvement in or upon a village street or other village highway. In all such cases the said board of trustees may assess the whole or any part of said amount upon property abutting upon the street improvement as herein provided, exclusive of so much of said amount, if any, as may be
